SIGNAL STATION, VICTORIA PEAK, HONG KONG.

The *Union Jack* will be hoisted at the Mast Head when any Vessel is being signalled. The *Red Ensign* at the Mast Head will denote that a British Functionary of Rank is on board of a Vessel approaching. The *National* or *House Flag* will be hoisted over the symbol, when either is flying on board the Vessel signalled. The Signals of Vessels in the Offing will be repeated. In making *Signals to Men-of-War* in the Harbour or in the Offing, a White Ensign will be hoisted at the Flag Staff and at the Mast Head of the Man-of-War. The *Commercial Code of Signals* for all Nations will be used at the Staff. All *Distance Signals* will be made at the Mast Head and all *Compass Bearings* will be made at the Yard. On a *Steamer*, or the *smoke of a Steamer*, being sighted, the *Compass Bearings over the proper symbol* will be hoisted at the Yard Arm; and the *Distance off* in miles will be hoisted at the Mast Head. The *Distance Signal* will be kept up ten minutes and the *Compass Signal* until the Steamer is made out. When the *Steamer* is made out, if it is either an English, French, or American Mail *Steamer*, a gun will be fired and the *Distance off* at that moment will be hoisted under a ball at the Mast Head. The *Compass Signal* will then be hauled down and the proper *National* or *House Flag* will be substituted for it. The Mast Head Signal will be kept up ten minutes, and the Yard Arm Signal until the Steamer anchors. For any other than a Mail *Steamer*, the same Signals, with the exception of the gun or ball, will be used. River Steamers will not be signalled. Other Steamers from Macao and Canton will be made known by shewing the *National Flag* and symbol at West Yard Arm only.

MERCHANT SHIPS.

Symbols to be Hoisted at the
Yard Arms.

MEN OF WAR.

Symbols to be Hoisted at the
Quarter of the Yard.

Where a Saint's Day falls on a Sunday, the Lessons for both are given, those for the Saint's Day being in italics.

If there be a third service on Sundays, the Second Lesson for that Service may be any Chapter from the four Gospels, or any Lesson appointed in the Calendar from the four Gospels, at the discretion of the Minister, except on those Sundays for which alternative Second Lessons are specially appointed in the above Table.

Upon occasions to be approved by the Ordinary, other lessons may, with his consent, be substituted for those which are appointed in the Calendar.

REMARKS RESPECTING THE TIDES BETWEEN CANTON, HONGKONG, AND MACAO.

In the absence of *complete* tide tables, the following table and remarks may be found serviceable.

| PLACES. | Latitude North. | Longitude East of Greenwich. | Time of high water. | | Rise of Tide. |
|----------------------|--------------------|---------------------------------|------------------------|------|------------------|
| | | | hrs. | min. | |
| Macao | 22° 11' 30'' | 113° 32' 30'' | 10 | 10 | 8 |
| Lankeet | 22 41 30 | 113 38 15 | | | |
| Anunghoy | 22 48 15 | 113 36 30 | 2 | 0 | |
| Second Bar Creek ... | 22 58 30 | 113 32 15 | 2 | 15 | 6 to 8 |
| Whampoa | 23 5 45 | 113 24 0 | 2 | 30 | |
| Canton | 23 7 0 | 113 15 0 | * 3 | 50 | 4½ to 5 |
| Lintin | 22 24 30 | 113 48 0 | 12 | 0 | 8 |
| Hongkong | 22 21 0 | 114 18 0 | 10 | 20 | 7½ |

The flood tide, when regular (which is seldom), runs round Cabreta Point towards the town of Macao; but a little outside of the Point it sets along the land to the north, across the bay, until it meets the tide from Capsing-moon (or Capshui-moon, "the swift water passage"), above Lintin, when it flows in a direct channel towards the Bogue. The velocity of the flood tide in Macao Roads is about $2\frac{1}{2}$ miles in the north-east monsoon and moderate weather; but when it blows strong from the northward there is no apparent flood. The ebb then runs at the rate of 3 to $3\frac{1}{2}$, and 4 miles when the water is falling by the land. The ebb tide sets out from the town of Macao much in the same way as the flood comes in, with the difference of running a little more to the westward along the shore, before it takes the southerly direction; the latter part of this tide is therefore the best time for boats to start for Lintin or Canton, with a contrary wind, as they then get out far enough to have all the flood to work to the northward with.

The tides at Lintin run north and south, or nearly so. The velocity of the ebb in the north-east monsoon when blowing strong, is much the same as in Macao Roads; but there is always a preceptible flood of 1 or $1\frac{1}{2}$ miles. During the height of the south-west monsoon, the ebb runs at times at the rate of 6 and $6\frac{1}{2}$ miles, after heavy rains; at that season the floods are very weak.

CHINESE WEIGHTS AND MEASURES.

MONIES.—Accounts are kept at Canton in taels, mace, candarines, and cash: the tael being divided into 10 mace, 100 candarines, or 1,000 cash. There is but one kind used for small payments; it is composed of six parts of copper and four of lead; it is round, marked on one side, and rather raised at the edges, with a square hole in the middle. These pieces are commonly carried like beads, on a string or wire. A tael of fine silver should be worth 1,000 cash; but on account of their convenience for common use, their price is sometimes so much raised that only 750 cash are given for the tael.

Foreign coins, however, circulate here, particularly Spanish dollars; and for small change they are cut into very exact proportions, but afterwards weighed; for which

* The flood ceases rising at this hour, but the stream in the middle of the river runs up a considerable time longer.—H. B. 1841.

purpose merchants generally carry scales, called dotchin, made somewhat after the plan of the English steelyards.

The tael used to be reckoned at 6s. 8d. sterling in the books of the East India Company, but its value varies, and is generally computed according to the price paid per ounce for Spanish dollars in London. The tables given for this proportional value may be calculated in pence sterling, by the multiplier 1,208. Thus, if the price of the Spanish dollars be 60d. per ounce, the value of the tael will be $60 \times 1,208 = 72.48$; if at 66d., the value of the tael will be 79.728d.; and for any other price in the same proportion.

FINESS OF GOLD AND SILVER.—The fineness of gold and silver is expressed by dividing the weight into 100 parts, called toques, or touch; similar to the modern practice of France. Thus, if an ingot be 93 touch, it is understood to contain 7 parts of alloy and 93 of pure metal, making in the whole 100.

The fineness of the precious metals, expressed in these decimal proportions, may be converted into English proportions by the following analogies:—Suppose gold is 91.66 touch, say, as 100 91.66: : 12: 11, the standard, and *vice versa*; and to convert standard silver into touch, say, as 240: 222: : 100: 92.5, the touch of sterling silver. Pure gold or silver without alloy is called by the Chinese sycee; and sometimes when of less purity the metal is accepted as sycee.

SILVER INGOTS are used as money, and weigh from half a tael to 100 taels, their value being determined by their weight. These ingots are of the best sort of silver; that is, about 94 touch.

GOLD INGOTS.—Gold is not considered as money, but as merchandise; it is sold in regular ingots of a determined weight, which the English call shoes of gold; the largest of these weigh 10 taels each; and the gold is reckoned 94 touch, though it may be only 92 or 93.

To bring ounces into taels, divide the ounces by 1,208.

WEIGHTS.—Gold and Silver are weighed by catty of 16 taels; the tael is divided into 10 mace, 100 candarins, or 1,000 cash. 100 taels are reckoned to weigh 120 oz. 16 dwts. Troy, which makes the tael equal to 579.8 English grains, or 37.566 grammes.

The principal weights for merchandise are the picul, the catty, and the tael; the picul being divided into 100 catties, or 1,600 taels.

| | lbs. | oz. | dwts. | |
|---------------------------------|------|-----|-------|---|
| 1 Tael weight, avoirdupois..... | 0 | 1 | 5.333 | = $1\frac{1}{3}$ ⁶⁶ / ₁₀₀ |
| 16 Taels, or 1 catty..... | 1 | 5 | 5.333 | = $1\frac{1}{3}$ lb. |
| 100 Catties, or 1 picul..... | 133 | 5 | 5.333 | = $133\frac{1}{3}$ lbs. |

Hence the picul weighs 60.472 kilogrammes, or 162 lbs. 0 oz. 8 dwts. 13 grs. Troy.

The above weights are sometimes otherwise denominated, especially by the natives; thus, the catty is called gin; the tael, lyang; the mace, tchen; the candareen, fivan; and the cash, lis.

There are no commercial measures in China, as all dry goods and liquids are sold by weight. In delivering a cargo English weights are used, and afterwards turned into Chinese piculs and catties.

LONG MEASURE.—That used in China is the coid or cobre; it is divided into 10 punts, and is equal to 0.3713 metres, or 14.625 English inches.

The Chinese have four different measures answering to the foot, viz:—

| | Metres. | Eng. inches. |
|---|----------|--------------|
| The foot of the mathematical tribunal = | 0.333 | = 13.125 |
| The builders' foot, called congou | = 0.3228 | = 12.7 |
| The tailors' and tradesmen's foot..... | = 0.3383 | = 13.33 |
| The foot used by engineers..... | = 0.3211 | = 12.65 |

The li contains 180 fathoms, each 10 feet of the last-mentioned length; therefore the li = $1,897\frac{1}{2}$ English feet; $192\frac{1}{2}$ lis measure a mean degree of the meridian, nearly; but European missionaries in China have divided the degree into 200 lis, each li making 1,826 English feet; which gives the degree 69.166 English miles, or 11.131 French myriametres.

THE CALENDAR FOR 1876.

Adjustment of the Calendar.

Julius Cæsar was the first to attempt to adjust the length of the year with any degree of accuracy, and fixed it at 365 days 6 hours; introducing a day every fourth year (called leap year), which accordingly consists of 366 days, while the three others have only 365 days each.

From him it was called the Julian Year, and it continued in general use till the year 1582, when Pope Gregory XIII. undertook to rectify the error which then existed between the Julian year of $365\frac{1}{4}$ days and the solar year of 365·2422013 days. At that time the difference amounted to ten days; he accordingly commanded the ten days between the 4th and 15th October in that year to be struck out, so that the 5th day was called the 15th. This alteration has been introduced throughout Europe, except in Russia and by the Greek Church, and the year was afterwards called the Gregorian Year, or New Style.

In England the method of reckoning after the New Style was not admitted into the Calendar till the year 1722, when the error amounted to nearly eleven days, which were taken from the month of September, by calling the 3rd of that month the 14th, and it was settled by Act of Parliament (24 Geo. II., 1751), that the years 1800, 1900, 2100, 2200, 2300, and every hundredth year of our Lord, which shall happen in time to come, shall be computed as each consisting of 365 days only, excepting every fourth hundredth year, whereof the year 2000 should be the first.

By the same Act of Parliament the Legal beginning of the year was changed from the 25th of March to the 1st of January, so that the succeeding months of January, February, and March, up to the 24th day, which by the Old Style would have been reckoned part of the year 1762, were accounted as the three first months of 1763, which is the reason we sometimes meet with such a date as:—

March 10th, 1774-75.

That is, according to the Old Style it is 1774, according to the New 1775.

|----------------------|-------------------------|
| Golden Number.....15 | Dominical Letter.....BA |
| Epact.....4 | Roman Indiction.....4 |
| Solar Cycle.....9 | Julian Period.....6589 |

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, after which all the Dominical Letters return in the same order as they did during the 28 years before. The first year of the Christian Era is the tenth of this Cycle.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden number, and sometimes the Metonic Cycle (from Meton, an Athenian philosopher, who invented it about 432 years before the birth of Christ), is a revolution of 19 years, in which time the conjunctions, oppositions, and other aspects of the Moon are within an hour and a half of being the same as they were on the same days of the months 19 years before. The Prime, or Golden number, is the number of years elapsed in this Cycle. Before the birth of Christ two years of this Cycle had elapsed.

The Roman indiction is a period of 15 years, and used by the Romans for the time of taxing their provinces. Three years of one of these Cycles had elapsed before the birth of Christ.

The Julian period contains 7980 years, and arises from multiplying together 28, 19, and 15, being the Cycles of the Sun, Moon, and Indiction. This was contrived by Joseph Juste Scaliger, in 1583, for Chronological purposes, and is assumed as a fixed Era in calculations by all Astronomers and Chronologers throughout the Christian world. Its beginning is placed 710 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

ECLIPSES.

In 1876 there will be two Eclipses of the Sun, and two of the Moon.

I. March 10th, a partial Eclipse of the Moon, *partly visible* at Greenwich, begins at 5h. 21m. a.m. Greenwich mean time, and ends at 7h. 21m. a.m. Visible in North and South America, and the Atlantic and Pacific Oceans.

II. March 25th, an Annular Eclipse of the Sun *invisible* at Greenwich, begins at 5h. 29m. p.m. Greenwich mean time, in long. 170° 40' W., and lat. 5° 41' S., and ends at 10h. 40m., in long. 65° 47' W., and lat. 52° 29' N. Visible in North America and North Pacific Ocean. At Vancouver Island it begins at 11h. 7m. a.m., and ends at 1h. 47m. p.m. local mean time.

III. September 3rd, a partial Eclipse of the Moon, *visible* at Greenwich, begins at 8h. 15m. p.m. Greenwich mean time, and ends at 10h. 29m. p.m. Visible in Australia (excepting near east coast), India, Africa, and Brazil.

IV. September 17th, a total Eclipse of the Sun, *invisible* at Greenwich, begins at 7h. 12m. p.m., Greenwich mean time, in long. 160° 12' E., and lat. 9° 58' N., and ends at 26 minutes past midnight, in long. 100° 2' W., and lat. 48° 19' S. The Eclipse begins and ends near sunrise in Australia. In New Zealand a partial Eclipse is visible at the following *local* mean times:—at Auckland, begins on September 18th at 8h. 13m. a.m., and ends at 10h. 24m. a.m., magnitude (sun diameter=1) 0.49; at Dunedin begins at 8h. 17m. a.m., and ends at 10h. 8m. a.m., magnitude 0.35; and at Christchurch begins at 8h. 19m. a.m., and ends at 10h. 19m. a.m., magnitude 0.39.

RULES TO KNOW WHEN THE MOVEABLE FEASTS OCCUR.

Easter day, on which the rest depend, is always the first *Sunday* after the first full moon which happens after the 21st day of March. If the full moon happens upon a *Sunday*, *Easter Day* is the *Sunday* after. *Advent Sunday* is always the nearest *Sunday* to the Feast of *St. Andrew*, whether before or after.

Rogation Sunday is Five weeks after Easter. | Whit Sunday is Seven weeks after Easter.

Ascension Day is Forty days* after Easter. | Trinity Sunday is Eight weeks after Easter.

* Inclusive.

NATIVE FESTIVALS, FASTS, AND OBSERVANCES.

CHINESE.

TUNG-CHI.—Or Winter solstice, a festival observed by all classes; it is also called *Chang-shi-tsieh*, or the time when the long days come, because then the sun begins to return, and the days grow longer. Officers go in state to worship the Emperor's tablet, and the people adore their lares.—Eleventh moon, sixth day.

SIE-TSAU.—The God of the Furnace ascends to heaven to report upon the conduct of the family to the Perfect August Shangti; hence people pay their adorations to that deity, and sie-tsau, "thank the furnace." In some parts of China, this Shangti is regarded as the Supreme God in the Chinese pantheon, and it is supposed the other deities derive their power and position from him. This popular superstition, though not peculiar to any class, seems most closely allied to the Tau sect.—Twelfth moon, twenty-fourth day.

LEI-CHUNG.—Lei-chung term, or festival of Spring. This day, the period of the sun reaching the 15th degree in Aquarius, is one of the chief days of the Chinese calendar, and is celebrated with great pomp as well by the government as by the people. In every capital city there are made, at this period, two clay images of a man and a buffalo. The day previous to the festival, the *chifu*, or chief city magistrate, goes out to *ying chun*, "meet the spring," on which occasion children are carried about on men's shoulders, each vieing with his neighbour in the gorgeousness and fancifulness of the children's dresses. The following day, being the day of the festival, the prefect again appears as the Priest of Spring; in which capacity he is, for the day, the first man in the province. Hence the chief officers do not move from home on this day. After he has struck the buffalo with a whip two or three times, in token of commencing the labours of agriculture, the populace then stone the image till they break it in pieces, and many of them carry off pieces of the clay to put on their fields, under the impression that a better crop will thereby be obtained. The festivities continue ten days in some parts of the country, but the degree of ceremony attending this festival differs greatly in different parts of China; in Canton it is not attended with much display.—First moon, tenth day.

YUEN TAN.—Yuen-tan, the first morning, or new-year's day. The period of new-year is almost the only time of universal holiday in China. Other times and seasons are regarded only by a few, or by particular classes, but the new-year is accompanied with a general cessation from business. The officer, the merchant, and the labourer, all equally desist from work, and zealously engage in visiting and feasting—occasionally making offerings at the temples of those deities whose peculiar aid they wish to implore. Government offices are nominally closed for about ten days before, and twenty days after, new-year; during which period none but very important business is transacted. On the last evening of the old-year, all tradesmen's bills and small debts are paid, and inability to pass this time of settlement injures a man's credit, and usually results in insolvency; while, too, the custom, by compelling an annual settlement of accounts, prevents many failures. This is perhaps the reason why it is called *shu-seih*, "the evening of dismissal."—First moon, first day.

CHE TA-YUEN-SHWAI; a deified warrior.—First moon, second day.

TIN KWANG.—Tin-kwang, a Buddhist sage, born.—First moon, third day.

YIN-JIH.—Yin-jih, or "man-day." The first ten days of the year, and named after various animals, "fowl-day," "dog-day," &c., of which the seventh, "man-day," is the greatest. Some persons have supposed there is an obscure or ancient reference in these days to the order followed at the creation.—First moon, seventh day.

WU-TU-SHING-KIUN.—Five lares of the household; they are this day placed on the ground in various quarters of the house for its protection; and the ceremony is repeated on the tenth of the four following months.—First moon, tenth day.

SHAI-TANG, OR FEAST OF LANTERNS.—Shai-tang, or Feast of Lanterns, so called by Europeans. At night all classes illuminate the temples, shops, &c., with fanciful lanterns, and assemble at convivial parties called lantern feasts. Offerings of lanterns are made at the temples of the Gods. This festival is observed at Canton by merely hanging a lantern before the shop or house.—First moon, fifteenth day.

YUH-HWANG.—Shangti's birthday: this deity is the highest of the Tau sect, and, more than any other, answers, in the Chinese mythology, to the Jupiter of the Greeks.—First moon, fifteenth day.

CHANG-CHUN.—Chang-chun, a celebrated physician, born; deified by the Tauists. His shrine is placed in doctors' shops.—First moon, nineteenth day.

SHEN-TSAI-TUNGTSZ'.—Two images of children are placed at the back of dwellings for protecting them and increasing the prosperity of the inmates; they are called Shen-tsai-tungtsz'.—First moon, twentieth day.

TU-TI.—The household gods born. They are called Tu-ti, and also Fu-shin, gods of happiness; they include all classes of household deities. At this period plays are performed at the public offices, and in the streets; while rockets and other fireworks are let off.—Second moon, second day.

WANCHANG-TI-KIUN.—Wanchang-ti-kiun, god of learning, born. His image is placed in the temples of Confucius, and the offices of literary magistrates; scholars worship him.—Second moon, third day.

TUNG-WA-TI-KIUN.—Tung-wa born; a god of the Tau sect.—Second moon, sixth day.

HUNGSHING.—Hungshing, god of the Canton River, born.—This is a southern deity, whose worship is chiefly confined to Canton, where it is celebrated with much pomp and display.—Second moon, thirteenth day.

The birthday of Yoh-F'i, a faithful minister of the Sung dynasty.—Second moon, fifteenth day.

LAUKIUN.—Laukiun born. Laukiun, called also Lautsz, an ancient sage, and the founder of the Tau sect, was partly contemporary with Confucius. The latter in his youth took lessons from Lautsz on the subject of sacrificial rites. The principal deities of the Tau sect are Sau-tsing, three pure ones,—Shanghai, a supreme ruler, subordinate to those three, and an infinity of inferior gods and deified men.—Second moon, fifteenth day.

TSING-MING.—Tsing-ming term.—Festival of the tombs. At this period of the year the Chinese everywhere repair to the tombs with offerings of food, which after the spirits of the deceased have fed on the spiritual portion, they themselves partake of. The weather at this time being usually fine, the weeds and dirt are cleared away from the tombs, and any repairs requisite in the brickwork are made. From this custom, the rite is often called Sum-fun, sweeping the tombs. Long slips of paper are laid on the grave after the ceremonies are over, as a proof that the sacrifices have been made.—Third moon, tenth day.

KWANYIN.—Kwanyin's birthday; she is often called the goddess of mercy, and is the great goddess of the Buddhists. There are supposed to be more temples erected to this idol in the city of Canton than to any other.—Second moon, nineteenth day.

HUEN-TIEN SHIN-FU.—Huén-tien shin-fu, birthday of the father of the Shangti of the Sombre Heavens; a god of the Tau sect.—Second moon, twenty-fifth day.

AGRICULTURAL CEREMONY.—On a fortunate day in the third moon, the grand agricultural ceremony is performed at Peking by the Emperor and his ministers, and in all the provinces by the head officers of the government. The ceremony consists in holding a plough, highly ornamented, which is kept for the purpose, while the bullock which drags it is led over a given space. The rule is that the Emperor ploughs three furrows; the princes, five; and the high ministers, nine. These furrows are, however, so very short, that the later monarchs of the present dynasty have altered the ancient rule laid down by the predecessors of Confucius, ploughing four furrows, and returning again over the ground. The ceremony finished, the Emperor and his ministers repair to the terrace for inspecting the agricultural labours, and remain till the whole field has been ploughed by husbandmen. The Emperor often appoints a proxy.

HIUEN-TIEN SHANGTI.—Hiuen-tien Shangti, the Supreme Ruler of the Sombre Heavens; the festival of the second deity in the pantheon of Rationalists. He is also usually called Pethi, god of the North Pole, and his festival is very generally observed.—Third moon, third day.

CHANG-YANG WU-TAU.—Chang-yang Wu-tau born.—Third moon, thirteenth day.

HIUN-TAN YUEN-SHWAI.—Hiun-tan Yuen-shwai born; worshipped in households. I-ling Tai-ti born: a celebrated physician, worshipped by sick persons.—Third moon, fifteenth day.

HAU-TU NIANG-NIANG.—Hau-tu Niang-niang, the goddess of earth.—Third moon, eighteenth day.

TIEN-HAU.—Tien-hau, or the Queen of Heaven, born. This female deity was a native of Fukkien; and has become the goddess of sailors, who are mostly of that province. She corresponds in many respects to the Amphitrite of the Greeks, though some of her names and attributes seem to have been derived from the Virgin Mary. Her temples are numerous, and her worship is costly.—Third moon, twenty-third day.

TSZ'-SUN NIANG-NIANG.—The goddess of children, worshipped by those who wish children.—Third moon, twenty-sixth day.

SAN-KIAI SHING-YE.—San-kiai Shing-ye, or Holy Lords of the three Borders; worshipped in the yards of the courts of houses to propitiate the powers of nature. Same day is the festival of the present Budha, Shihkia Jü-lai.—Fourth moon, eighth day.

LUI-SHEN-YANG SIEN.—Lui-shen-yang-sien, one of the eight genii, also called Luitunk-pin.—Fourth moon, fourteenth day.

CHUNG-LI-TSU-SZ'.—Chung-li-tsu-sz', one of the eight genii.—Fourth moon, fifteenth day.

KIN-WAH-FUJIN.—Kin-wah-fujin, the Juno Lucina of the Cantonese; women worship her when with child, and also for aid in childbirth. She is supposed to have originated in Canton, and a famous temple to her is built within the Old City. Another temple to this goddess is situated opposite the Foreign Factories of the suburb of Honam.—Fourth moon, seventeenth day.

WA TO-SIEN-SZ'.—Wa To-sien-sz, a physician, spoken of in the San Kwok Chi; worshipped by the sick.—Fourth moon, eighteenth day.

YEN-KWANG SHING-MU.—Yen-kwang Shing-mu, Holy Mother of Bright Eyes, a goddess worshipped by the blind, and those with diseased eyes.—Fourth moon, twentieth day.

YOH WANG.—Yoh Wang, king of Medicine, the Esculapius of Chinese mythology.—Fourth moon, twenty-eighth day.

NAN-KIH TA-TI.—Nan-kih-Tai, the Great Ruler of the South Pole; a god of Rationalists.—Fifth moon, first day.

TWANG-WU.—Festival of dragon boats, called in Chinese Twáng-woo or Twáng-yáng, and also Tienchung. On this day many people race backwards and forwards in long narrow boats, which, being painted and ornamented so as to resemble dragons, are called *lunchuen*, dragon boats. From the narrowness of the boats, and the number of persons on board, there being sometimes from sixty to seventy paddles, it not unfrequently happens that several of the boats break in two; so that the festivities seldom conclude without the loss of several lives. The magistrates endeavour to repress the ardour of the people by issuing their prohibitions, but the people are led on by the excitement. The races are attended by thousands, and rowers are inspirited by the sound of drum and pipes; these noises are supposed to terrify evil spirits and ward off disease, consequently the sports are attended with double zest when sickness prevails. Tradesmen's accounts are cleared off at this period.—Fifth moon, fifth day.

SAI-I-FUH.—Sai-i-fuh, festival of airing clothes. It is a fancy that clothes aired on this day are not liable to be injured by insects.—Sixth moon, sixth day.

LU-PAN.—Lu-pan, the god of Carpenters and Masons, on which day these craftsmen take holiday. Tsing-shim Lung-wang, god of Wells and Dragon-king, worshipped by sailors and others to avert calamity and storms.—Sixth moon, thirteenth day.

KWANYIN.—Assumption of Kwanyin; she ascends to heaven.—Sixth moon, nineteenth day.

GOD OF FIRE.—God of Fire born. This deity is frequently propitiated by exhibitions of plays. In China there are no regular theatres: sheds are erected in the streets, and a platform being raised about four feet above the ground, the spectators all stand in the street in front; the expenses are paid by private subscription, usually of several merchants. Gentlemen have them also at their own houses; where in some instances there are substantial buildings erected for the performance of the players, and accommodation of persons invited to see the play. Even in this case, an open space is left for the free admission of the people. Almost all the theatrical performances of the Chinese are held on the birthday or festival of some god, and are therefore of a religious character. They are particularly numerous in honour of the God of Fire—Also Kwán-shing Tai-ti, the Chinese God of War, died. Ma Waang-shin, the God of Horses, worshipped to avert disease from horses, and by horsemen to become skilful in equestrian feats.—Sixth moon, twenty-fourth day.

WANG-LING-KWAN-SHING.—Wang-ling-kwan-shing, a deified statesman, worshipped for the averting of punishment.—Sixth moon, twenty-sixth day.

TSIH-KUNG-SIEN-NU.—Tsih-kung-sien-nu, the female genii of the seven palaces descend; a festival observed by women, who worship these fairies to avert disease and get skill in domestic work.—Seventh moon, seventh day.

TI-TSANG-WANG.—A deified Buddhist, worshipped for remission of sins.—Seventh moon, thirtieth day.

SHAU-I.—Or Burning-clothes festival. At this period, which lasts fifteen days, clothes made of various coloured papers are burnt, that they may so pass to the invisible world for the benefit of the deceased relatives. Prayers also are recited and food offered, chiefly for those who have been drowned at sea. This festival is much observed by the people of Fuhkien province. The custom arises from a tradition respecting a young man who obtained admission to Tartarue, and brought his mother from thence.—Seventh moon, fourteenth day.

TSANG-FUN TSAI-SHIN.—God of Happiness and Wealth; placed in niches at the doors of shops. This deity, the Plutus of the Chinese, is seldom carved into an image, but a piece of paper is pasted on the back niche near the door; the shrine is called *tsu pao tan*, i.e., Hall of Collected Values.—Seventh moon, twenty-second day.

TU-CHING-HWANG-TAN.—Festival of the Municipal Deity of the City, worshipped by officers and people; he might be termed the Palladium Deity, as he has a temple in every walled city in China. On this day, the Cantonese resort to a temple on the White Cloud Hills, north of the city, in great numbers, to worship Chin-sien, a deified official of the Ming dynasty.—Seventh moon, twenty-fourth day.

SHE-TUH TA-WANG.—Great Prince of the Agricultural gods.—Eighth moon, second day.

SZ-MING TSAU-KIUN.—The Lord who orders the Prince of the Furnace; worshipped to preserve the health of households.—Eighth moon, third day.

LUI-SHING TA-TI.—God of Thunder.—Eighth moon, fifth day.

AUTUMN FESTIVAL.—This festival continues from the first to the sixteenth of the moon, during which period families visit and feast with each other, and friends interchange presents of *moon cakes*. These are round white cakes, with figures of men and women painted on them; they derive their name from a legend of an Emperor of the Tang dynasty, who being led one night to the palaces of the moon, saw there a large assemblage of female divinities, dancing and playing on instruments of music; on his return he instituted plays in commemoration of it.—Eighth moon, first day.

CHUNG-TSIU.—Mid-autumn. This being the middle day of autumn, is the chief day of the autumnal festival; oblations are made to the moon on this day. On the following day young people amuse themselves by "pursuing the moon;" it is also called *ho yueh* "congratulating the moon." On the evening of this day, every householder and boatman raises a lantern upon the top of a ship's pole from the highest part of his house or vessel, on which is inscribed *hing ho chung tsiu*, "joyfully congratulate the middle of autumn." From the foreigners' Feast of Lanterns.—Eighth moon, fifteenth day.

NAN-TAU-SING-KIUN.—Starry god of the south Pole descends; this god belongs to the sect of Rationalists.—Ninth moon, first day.

TAU-MU-YUEN-KIUN.—Mother of the Dipper; a goddess adored to obtain happiness and long life. This day is also observed as a time to visit graves, and for children to fly kites; it is called from this *tan kau*, "ascending on high."—Ninth moon, ninth day.

COCOON FESTIVAL.—On a fortunate day of the ninth moon, the Empress, either personally or by proxy, accompanied by a train of princesses and honourable ladies, repairs to the altar sacred to the discoverer of silkworms. After sacrificing, the Empress with golden, and the princess with silver implements, collect mulberry leaves to feed the imperial silkworms. They then wind off some cocoons of silk, and so end the ceremony. This very ancient festival is considered as the counterpart of the agricultural one observed by the Emperor in the spring.

SIEN-FUNG YANG-SZ-YE-YE.—Lord of the Front Spear; worshipped to obtain success and profit in life and business.—Ninth moon, seventeenth day.

WA-HWANG TA-TI.—God of Fire: worshipped by all classes with great parade to preserve houses and shops from fire. The temples dedicated to this idol in the city of Canton are more numerous than to any other deity.—Ninth moon, twenty-eighth day.

TUNG-KWANG TA-TI.—Eastern August Great Ruler: a god of the Rationalists.—Tenth moon, first day.

TA-TSIAU.—The nine gods of the Great Bear descend; worshipped by the Rationalists, and generally also by the people, tradesmen, and others, for peace. The period is usually chosen for worshipping wandering spirits as well as these gods; the rites are called *Ta-tsiu*. They are in Canton among the most showy idolatrous ceremonies. People living in three or four streets combine, and ornament the streets with chandeliers, puppets, figures, and scrolls, and fit up a room for religious exercises to appease the wandering *kwei*.—Tenth moon, first to ninth day.

TAY-SHIN LIU-SZ'.—God of Small-pox: his name was Liu, and he is accommodated with a niche in other temples.—Tenth moon, fifteenth day.

PEH-KIH-TZ-SWI.—Also Wu Yoh Wu Ti; the festival of gods of the Five Hills and the Five Rulers, names of five places and five deities collectively worshipped. The Five Hills are Tai-shan in Shantung, Hang-shan in Hunan, Heva-shan in Shensi, Hang-shan in Chihli, and Sung-shan in Honam. The Five Rulers are the Azure, Red, Yellow, and Black *Shangti*.—Tenth moon, twenty-sixth day.

FESTIVAL OF CONFUCIUS.—Confucius born; his festival is observed by officers of government and scholars, who repair to his temples.—Eleventh moon, fourth day.

JULAI BUDHA.—Ancient festival of the Prince and his officers going to the annual hunt. Also of the Julai Budha.—Eleventh moon, eleventh day.

OMETO FUH, Amida Budha.—Eleventh moon, seventeenth day.

KWANYIN.—Festival of Kwányin.—She has three during the year, all of which are observed by the people.—Eleventh moon, nineteenth day.

JAPANESE.

REIBI.—The first, fifteenth, and twenty-eighth of every month throughout the year are holidays, called Reibi, or days for visiting.

NEW YEAR'S DAY.—The first seven days of Shogwats (first month), or the New Year, are festival holidays, and on these days congratulatory visits are exchanged.

HATSMOMA.—The first day of Nigwats (second month) is called Hatsmoma, the Feast of Inari, the patron of farmers against fire and thieves.

MOMO-NE-REKI, or Doll Feast.—The third of Sangwats (third month), is a special holiday for the Girls, and is called *momo-ne-reki*, or the Doll Feast.

TANABALA.—This is a holiday for homage to the Milky Way, or Heavenly River, on the seventh Schig-wats (seventh month).

BONTORO.—The fourteenth, fifteenth, and sixteenth of Schig-wats (seventh month) are special holidays, called *Bontoro*, or the Feast of the Ancestors.

TJOEGEN.—The Feast of Tjoegen, or middle of the year, occurs on the fifteenth of Schig-wats (seventh month).

MOON FEAST.—This occurs on the fifteenth Ha-chi-wats (eighth month).

LONG LIFE FEAST.—This feast day is a special holiday, and takes place on the ninth Ku-gwats (ninth month). It is also called the Gold-flower Feast.

INOGO.—A feast day on First Jiu-gwats (tenth month).

KOMPIRA.—The Feast of Kompira is on the tenth Jiu-gwats (tenth month).

HATS-GA-YEBIS.—The twentieth of Jiu-itchi-gwats (eleventh month) is called Yebis, and is dedicated to the God of Trade, Hats-ga-yebis.

JEWISH.

The festivals of the Jews were held weekly, monthly, and yearly. Each seventh and fifteenth year, moreover, was kept with peculiar solemnities.

The weekly festival was the Sabbath, a day consecrated to rest and cheerful devotion. It was instituted when God rested, on the seventh day, from the work of Creation, and the precept was renewed to the Hebrews at Marah, ere yet the Decalogue had been given from Sinai. It was kept from sunset on Friday to sunset on Saturday.

The monthly festival was held on the day of the new moon, or the first day of every month, which was proclaimed by sound of trumpet; the law, however, did not oblige the people to rest on these days, though it appointed particular sacrifices.

The Feast of the Passover, of Pentecost, and of Tabernacles, were the three principal festivals observed under the law, and they were times of real joy and festivity. As all the male inhabitants throughout the country were required on these occasions to go up to Jerusalem, and the females also permitted to accompany them if they chose, the concourse was generally very great. These religious assemblies, besides commemorating important events in their history, also subserved other important purposes. They kept them steadfast to their religion, by the view of ceremonies and the majesty of the divine service; they afforded the means of religious instruction, for the law of God was then read and explained; and they served, moreover, to renew the acquaintance and friendship of tribes and families, who from all parts of the country thus met three times in the year in the holy city.

The PASSOVER was instituted to commemorate the departure out of Egypt, because on the night preceding that departure, the destroying angel who slew the first-born of the Egyptians *passed over* the houses of the Hebrews, they being marked with the blood of the lamb, which for this reason was called the Paschal Lamb. It was celebrated on the fourteenth day of the first month of the ecclesiastical year (April), and lasted seven days. A lamb, or, if that could not be found, a kid, without blemish, was killed, roasted, and eaten with unleavened bread and bitter herbs. The first Passover was eaten with their loins girded, their shoes on their feet, and their staves in their hands, that they might be in readiness for their journey, circumstances which were not observed in its celebration after the Exodus.

The Feast of PENTECOST, or WEEKS, was celebrated on the fiftieth day after the Passover, and was a feast of thanksgiving to the Lord, wherein they acknowledged his dominion over their country and their labours, by offering to him two loaves, as the first fruits of all their harvest. It also commemorated the giving of the law from Mount Sinai, two years and fifty days after their departure from Egypt. The Hebrews counted seven weeks from the Passover, beginning on the second day of that solemnity, and hence called it the Feast of Weeks; but by the Christians it was called Pentecost, a name which signifies the Fiftieth Day. It was on the day of Pentecost that the Holy Spirit was poured out from the ascended Saviour upon his Apostles, qualifying them with miraculous gifts for establishing the New Testament kingdom.

The Feast of TABERNACLES was instituted as a memorial of their fathers having dwelt in tents for forty years, during the passage through the wilderness. It was kept in the first month of the civil year (October), and lasted eight days, the first and seventh being the most solemn. During its continuance they lived in booths, tents, or arbours, constructed of the branches and leaves of trees. On the first day they cut down branches of the handsomest trees, with their fruits, which they carried in ceremony to the synagogue. Holding in their right hand a branch of palm-tree, of myrtle, and two of willow, tied together, and having in their left hand a citron and

fruit, they waved them towards the four quarters of the world, singing songs and crying "Hosannah."

These were the three Great Festivals at which all the males were required to go up to Jerusalem to worship. "Three times in a year shall all thy males appear before the Lord thy God, in the place which he shall choose, in the Feast of Unleavened Bread, and in the Feast of Weeks, and in the Feast of Tabernacles."—(Deut. xvi., 16; Ex. xxxiv., 23.)

The Feast of TRUMPETS was celebrated on the first day of their civil year (Sept.), its commencement being proclaimed by sound of trumpet, and the day was kept solemn, all business being forbidden, and certain sacrifices appointed to be offered.

There are also two other feasts, though not appointed by law, which require notice, as they are often mentioned in Jewish history. The feast of DEDICATION was appointed to celebrate the re-establishment of Divine worship in Jerusalem, after Antiochus Epiphanes had been vanquished and the temple purified. It is observed for eight days, from the 25th of the third month (December), and is also called the Feast of Lights, from the illuminations which the Jews make during these days in their houses.

Poorim, or the feast of Esther, falls on the 14th and 15th of the sixth month (February), and commemorates the defeat of Haman. On these days they give alms to the poor and presents to their friends on account of the lives of all the Jews having been saved by Esther. Thus it is called the feast of Esther.

The 10th of the first month of the civil year is the day of ATONEMENT, on which they observe a fast from evening 6 P.M. of the 9th to 7 P.M. of the 10th, and bewail their sins. Other fasts were also instituted in later times, connected with the siege of Jerusalem (10th of tenth month), the capture of the city (17th of the fourth month), the burning of the temple (29th of the fifth month), and the death of Gedaliah (3rd of the seventh month), of the Ecclesiastical year.

Every seventh year was to the Jews a Sabbatical year; and we find that Alexander the Great granted them an exemption from tribute on that year.

After seven weeks or Sabbaths of years, that is, after seven times seven years, the great Festival of the JUBILEE was celebrated; and during the whole year they neither sowed nor reaped. On this fiftieth year every one resumed possession of his inheritance, whether it were sold, mortgaged, or alienated in any way, and Hebrew slaves of every description were set free, with their wives and children. Houses and edifices in walled towns were the only kind of property that did not return to the original owner in the year of the Jubilee.

MAHOMEDAN.

RAMAZAN.—The Mahomedan fast commences each day throughout the month of this name, when the first streak of light borders the eastern horizon, and continues until the stars are clearly discerned in the heavens. During the whole period not the slightest particle of food, not one single drop of water, nor any other liquid or smoke even passes the lips from the dawn till the appearance of the stars in the evening. Each day during the fast is passed in occasional prayer, besides the usual namaz, and in reading the Koran or lives of the prophets. The fast is broken by a cooling draught called *Dandhi*, the same which is used in fevers. It is composed of the lettuce, cucumber, and melon, with coriander, well pounded, and afterward diluted with cold water, rose water, sugar, syrup of pomegranate, and kurat, are also added; the whole preparation is made in the zenana, and then drunk by basins-full by all true *Rozedhars*. Plain boiled rice, with dhi (sour curd) and sugar, form the first morning's repast of the Eed; dried dates are eaten with it, in remembrance of the prophet's family, whose greatest luxury was supposed to be the date of Arabia. The conclusion of the month Ramazan is celebrated as an Eedor festival, and is hailed with great rejoicing and merriment, as a sort of reward for their severe abstinence. In every house the same dainties are provided, every amusement that can be thought of is indulged in: the nach women in the apartments of the gentlemen, and the domini in those of the women, are in great request on the last day of the Ramazan, when the matron of the mansion sits in state to receive nazaras from inferiors, and to grant favours to others.

—11th March.

EED.—The followers of Mahomed claim to be descendants of Abraham through his son Ishmael, who, they aver, was chosen as the offering to the Almighty, and not Isaac, thus differing from the Jews and Christians, grounding their assertions on traditions which they deem conclusive evidence on the subject, in opposition to the authority of the Bible. The offering thus made is annually commemorated by the sacrifice of animals, such as camels, sheep, goats, or lambs, according to each person's means, which answer the double purpose of honouring the memory of Abraham and Ishmael, and also assisting as a meal in time of need. The followers of Mahomed believe that the entrance to Paradise is guarded by a bridge as narrow as a *scythe*, or some such equally sharp instrument, affording a precarious and unstable footing. To enable them, therefore, to pass without danger, they believe that the animals they have sacrificed at the feast of Eed will be present to lend their aid to help them over in safety.—*12th March.*

EED KORBAN.—In commemoration of Abraham offering up Ishmael; and this is the day on which they annually perform the Haj at Mecca.—*18th May.*

MOHARRAM.—A celebrated mourning festival, held annually in remembrance of the first martyrs of the Mussulmans—Hassain and Hossein—the two sons of Fatima and Ali, from whom the whole race of Syads have descended. Hassain was poisoned by an emissary of the usurping Kalipha, and Hossein, the last victim of the descendants of the prophet's family to King Yazid's fury, suffering a cruel death after the most severe trials on the plain of *Kurbala*, on the tenth day of the Arabian month Moharram, the anniversary of which catastrophe is solemnised with the most devoted zeal. Hassain and Hossein were, as above stated, the two sons of Ali, by his cousin Fatima, the daughter of Mahomed, and after the murder of their father by the contrivances of the Kalipha, they with their families removed from *Shawn* the capital, to Medina. After residing there for several years, the people of *Shawn*, being tired of King Yazid's tyrannical rule, invited Hossein to return to the capital, and assume his lawful right as Iman (leader of the faithful). Before accepting this invitation, Hossein sent Moslem, his cousin, as a messenger to report the true state of affairs to him; but on his arrival with his two sons at *Shawn*, he was seized by order of King Yazid, and cast from a precipice, and his two sons were barbarously murdered, for the sake of the reward offered for their heads. This forms the subject of the ten days' bewailing during the Moharran. The Mahomedans are divided into distinct sects, called the Shian and the Sunias. The former regard Ali and his descendants to be the lawful leaders after Mahomed, and the latter the Kaliphas, as Abubakr, Omar, &c., hence quarrels, animosities, and dislikes are hoarded up to be avenged during the Moharran. The festival begins on the first day of the moon (Moharran). Tazias (a term signifying grief, and applied to a representation of the mausoleum erected over the remains of Iman Hossein at *Kurbala*), made of ivory, ebony, sandalwood, cedar, and some wrought in silver filigree, and indeed of every variety of material, from pure silver to bamboo and paper, according to the rank and wealth of the party, are exhibited in every direction, and conveyed in procession through the streets. Mourning assemblies are held morning and evening in the Imanbares, during the Moharran, and the head priest or preacher recites a subject for each day's service, from the various books composed on the subject, descriptive of the lives and sufferings of Hassain and Hossein. The *Marsiah*, a poetical composition of great merit, and embracing the whole of the subject they commemorated, is chanted with great effect; the names of their lawful leaders are recounted with blessings, and that of the usurpers, the Kaliphas, with curses. Then comes the procession of *Dhal Dhal*—Hossein's horse, killed at *Kurbala*, beautifully caparisoned; and finally the Tazias are deposited with funeral rites in the public burial grounds, when the Moharran ceases. The *Tabut* is a slight framework of bamboo, in the shape of a mausoleum, covered and ornamented with coloured paper and tinsel. They vary considerably in size and appearance, according to the taste and ability of those who build them. Before these *Tabuts* incense is burned and various other rites are performed. The *Tabuts*, it is said, are peculiar to India. They are not mentioned in the Koran, nor are they built by the inhabitants of Persia and Arabia. Many Mahomedans regard them with strong disapprobation. In Bombay the

larger portion of the Mahomedans unite in building the Tabuts. These are taken out, and, accompanied with music, carried in procession through the Bhendy Bazaar, from midnight of the ninth until three o'clock of the morning of the tenth day, and from two to six o'clock on the afternoon of the same day, on their way to the beach in Back Bay, where the greater part of the Tabuts, after being stripped of whatever is of value, are cast into the sea. The practice of building Tabuts seems to be losing ground in Bombay, a portion of those who formerly united in this having adopted the views of those opposed to such things. The Indian Mahomedans, who do not unite in building the Tabuts, are accustomed to go on this occasion to the mosques for five successive evenings, to listen to the account of the death of Hossein. Their demonstrations of grief, however, are not equal to those of the Moguls and Persians, who while listening to the recital, weep aloud, and smite violently upon their breasts. These are accustomed to meet at the Masjid, in Mirza Mahomed Ali Khan Street, Bombay. In Bombay there is strictly speaking no representation of the battle which was fought previous to the death of Hossein. Some two or three horsemen, bearing flags, enter the large yard adjoining the Imanbares with loud wailings, and are followed by two horses caparisoned, to represent those which were for the use of the fallen Hossein. One person on horseback, with a long sword apparently run through the head, and covered with blood, joins in the wailings. A female infant, in deep mourning, sitting at the door of a small mausoleum, which is carried on shoulders of men, constantly cast ashes or cut-straw upon her head, in token of grief. These pass round in a circle, accompanied or followed by a company on foot who beat upon their breasts, crying, "Hai Hossein! Hai Hossein!" Sometimes, a person represented in a dying state, his body covered with wounds and blood, and darts and daggers run into it, is carried about in procession. It would seem that this festival is now celebrated with less effort and effect than formerly. It is apparently becoming more and more a farce. The grief is doubtless for the most part feigned. The decline of the peculiar zeal of the Mahomedans must necessarily lead them to enter into these with less spirit.—17th June.

PARSEE.

The Parsees of India are divided into two sects—the "Shanshabis" or "Rasmis," and the "Kudmis" or "Churigars," the former of whom constitute the larger portion of the race. This division originated only about a hundred and fifty years ago, when a learned Persian priest, named Jamasp, arrived in India, and found that his co-religionists differed from their brethren of Iran in their calculation of time by a full month, and in other minor points relating to their "Liturgy." Serious disputes arose in consequence, which ended in the formation of the two sects, the Shanshabis adhering to their own views, and the Kudmis adopting the opinions imported by Jamasp—thus agreeing with their Persian brethren. Notwithstanding this division, no estrangement exists between them in their social intercourse. The difference lies only in their computation of time, and in some slight variations in their form of prayer. Intermarriage is allowed, as well as admission to each other's places of worship.

The festivals of the Parsees are celebrated with little or no outward pomp. Their holidays are mostly occupied in prayers in the morning, and festivities and rejoicings during the rest of the day. Some of their religious institutions are traced to a very ancient period. The festival of the Nowroz dates from upwards of three thousand years before Christ, and is kept to this day by most of the nations of Western Asia, notwithstanding the difference of creed. The Emperor Akbar adopted the "Nowroz" and fourteen other festivals of the Parsees, for the observances of these who were attached to his favorable doctrines of the "Hahi faith," or the "Religion of God," which he fruitlessly endeavoured to introduce among the people.

PAPETI, OR NEW YEAR'S DAY.—Among the festivals observed by the Parsees, the first and universally kept is the Papeti, or new year's day. On this day the Parsees rise early, and dress themselves in new suits of clothes, and those piously disposed say their prayers in their private residences, or visit their friends and relatives, when the "Hama-irjhr" or joining of hands is performed; this ceremony is a sort of

greeting corresponding to the European fashion of wishing each other a happy new year. Their friends and relations are invited to breakfast. The morning thus occupied, they spend the rest of the day in their country houses or clubs, where feasting and rejoicings are kept up till a late hour. Alms are also given to the poor in the course of the day, and new suits of clothes are presented to servants and dependents.

The ancient Persians reckoned a new era from the accession of each successive monarch, and as Yexdezard of the Sassanian dynasty was their last King, when dethroned by Kaliph Omer about A.D. 640, the date of his accession to the throne has been brought down to the present time, thus making their current year 1245.

In their calculation of the year only 365 days are allowed; leap year is unknown to them, though there are records which prove that in every 120 years one month was added to make it correspond with the solar year.

The year is divided into twelve months, of 30 days each, and five days, or "Gathas" as these are named, added at the end to make up the deficiency. These five Gatha days are held as the most sacred in the year, and those piously disposed spend them solely in prayers.

KHURDAD SAL.—The second of the Parsee festivals in the "Khurdad-Sal" day, or the anniversary of the birth of their prophet Zoroaster, who they say was born in the city of Beh, in the North of Persia, in the reign of Darius Hystapis, about 520 years before Christ. Heeren places the birth of this celebrated personage about 1,200 years anterior to this. The Parsees themselves differ as to the exact time of the birth of their prophet: a part of them fix the period at B.C. 389; others at B.C. 538. Religious ceremonies are performed in the morning by the women of the family and the priests, the men, as usual on such occasions, limiting themselves to private prayers.

AMURDAD-SAL.—This holiday, which falls on the day immediately after the preceding festival, appears to have no origin in the books of the Parsees. It is merely kept up as the continuation of the "Khurdad Sal;" no religious ceremonies are required, and the day is always spent in the enjoyment of pleasures.

FARURHARDIN JASAN.—This day is set apart for the performance of ceremonies for the dead, "Farurhar" meaning soul or spirit. The religious portion of the people attend on the hills at Chaopatty (Bombay), where their "dockmas," or "towers of silence" are situated, and there perform prayers for the dead, in commemoration of their memory. The Parsees are enjoined by their religion to preserve the memory of their dead by annual religious ceremonies performed in the house; but such of the friends as die on long voyages or in unknown places, and the date of whose death cannot be positively ascertained, are, according to the terms of their religion, honoured by sacred rites on this day. The ceremony "consists" in a man or woman preparing small round pieces of baked bread, called daruns, which are put on a tray or other copper vessel, along with the fruits and flowers, over which the priest performs the prayers of the Baj, or "Vaj," as it is called by M. Anquetil Du Perron in his "Zend Avesta." According to the translation published by this learned Frenchman, the Baj is an invocation of the names of the departed, and of such of the angels as have a direct control over the souls of the dead after their departure from this world. Prayers of this sort are still performed among the Hindus and the Mahomedans, and are not unknown in the Roman Catholic countries of Europe.

ARDEBEHIST-JASAN.—This festival, as its name implies, is maintained in honour of Ardebehist Amshaspond, the angel controlling the sacred fire, that element being one of the wonders of divine creation. The fire-temples are crowded on this day, sandalwood is offered to the sacred flame, and prayers offered to the Supreme Deity.

THE NOWROZ.—The fifth on the list is the celebrated Nowroz, called by some the Nowroz-i-Jamshid or the Nowroz-i-Sultan, the King's day. This celebrated festival falls generally about the 21st day of March, and corresponds with our Vernal Equinox. This day is observed by the modern Persians, the Arabs, the Turks, and several other Asiatic nations for the computation of the solar year, and for state purposes, such as the collection of revenue, and the arrangements for the agricultural operations of the year. Eastern writers date the origin of this festival from the time of Jamshid, the third King of the Peshdadian dynasty of Persia. Jamshid is supposed by Bailly to

have flourished 3,209 years before Christ; the Shan Namah celebrates him as the first King of his race who introduced civilisation among mankind, and established the computation of time. If we are to believe the Persian writers, the exquisite bas-reliefs among the ruins of Persepolis,—still visible in beauty after a lapse of two thousand years,—are representations of the Court of Jamshid, more especially on the festival of the Nowroz. The sculptures at this place contain representations of the Courts of ancient Persia, with the long train of attendants bringing offerings to the feet of Monarchs; and as the Nowroz is a sort of “revenue settlement” day, when the chiefs of different provinces lay their annual contributions before the throne, and are allowed audience with the monarch, the idea of a part of the Persepolitan bas-reliefs being a picture of some ancient King of Persia holding his Court on the day of the Nowroz, does not appear to be without foundation. In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Mahomedans or Parsees. In India it is simply a day of rejoicing.

AVA-ARDUI SAR JASAN.—Ava, in the Zend text, is the name of the angel who presides over the sea, and this “Jasan,” or festival, is held in his honour. The Parsees are required on this day to approach the sea shore, or any stream of water, and chant the Zend prayers, but owing to their long residence in India they have borrowed many Hindu rites in the observance of this holiday, and offerings of sugar, cocoanuts, flowers, &c., to the sea, are not uncommon. The better-informed portion of the community, however, do not join with their brethren in these superstitious acts. In Bombay a fair is held on the Esplanade in honour of this festival.

ADAR JASAN.—Adar, another synonyme for fire, is the name by which the ninth month of the Parsee year is called. This is the most sacred of the twelve months, and the ninth day of that month is held in great respect and sanctity. On this day the fire temples are very much crowded, and offerings of sandalwood are made to the sacred flame, and money distributed among the priests.

Besides the above, the festivals of the Parsees are the Meher Jasan, the Bahman Jasan, and a few others of less importance, all of which are partially observed.

SIAMESE MODE OF DIVIDING TIME.

The 24 hours of each day are divided into two equal parts. The day time is called WAN (*sound a as a in WHAT*). The night time K'u'n (*the apostrophe denotes that the letter before it is aspirated*). The former uniformly begins at 6 o'clock A.M.; the latter at 6 P.M. The hours of the forenoon are numbered 1, 2, 3, &c., up to 6, or mid-day. The hours of the afternoon are designated by the same numbers. Time in the forenoon is called Peda Ch'ow, (*e sounds as e in PREY*); time afternoon, Peda Bāi. The word denoting an hour in the day time is Mong; that for night time is Tōom. In expressing 9 A.M., they say, “Sām (third) Mong Ch'ow,”—3 P.M., “Sām Mong Bāi,” 9 P.M., “Sām Tōom.”

The hours of the night are counted in succession from 1 to 12. Six o'clock A.M. is the close of their twelfth hour of the night. Each night is divided into four watches of three hours each, and each watch is called a Yam.

Siamese months are designed to be lunar months; but they often vary from the moon of a day or more. Each month is divided into two parts, viz: KANG K'UN (waxing), and KANG-RAAM (waning). The former has always 15 days; but the latter has 15 days every 2nd, 4th, 6th, 8th, 10th, and 12th month; and 14 days every 1st, 3rd, 5th, 7th, 9th, and 11th month. Hence six of their months have 30 days, and six 29 days—354 to 12 months, which wants about 11 days to make up a full solar year. To compensate for this, they have an intercalary month of 30 days, once in two or three years. The years 1853, 1855, 1858, and 1861, were leap-years. By this plan there is still a loss of about three days in 19 years, which is supplied by adding a day to their 7th month from time to time, as their Brahmin astrologers see to be necessary.

TABLE OF SIAMESE TIME.

| | |
|-----------------------------|-------------------------|
| 60 Winat'ees make | 1 Nat'ee or minute |
| 6 Nat'ees " | 1 Bat |
| 10 Bats " | 1 Mong or Toom (hour) |
| 12 Mongs " | 1 Wan (day) |
| 12 Tooms " | 1 K'u'n (night) |
| 29 or 30 Wans & K'u'ns make | 1 Du'an (month) |
| 12 or 13 Du'ans " | 1 Pee (year) |
| 10 Pees " | 1 Sök, or cycle of ten. |

They have no word to denote a week of time. But each day of the seven has its appropriate name and number. Sunday is their first and Saturday their seventh day. By the recurrence of the first and seventh days they are reminded of the elapse of seven days, as we are by the word week.

The days of the week are :—

| | |
|------------------|-----------------------------|
| 1st. Wan At'it | (day of the Sun) Sunday. |
| 2nd. Wan Chan | (day of the Moon) Monday. |
| 3rd. Wan Angk'an | (day of Mars) Tuesday. |
| 4th. Wan P'oot | (day of Mercury) Wednesday. |
| 5th. Wan Prabat | (day of Jupiter) Thursday. |
| 6th. Wan Söök | (day of Venus) Friday. |
| 7th. Wan Sow | (day of Saturn) Saturday. |

Their twelve months are each designated by its appropriate number, excepting the first and second. The former, instead of being called the first month, is called Dúan ai (month ai), the latter, Dúan Yee (month Yee). The next succeeding month is called Dúan Sam (third month); the next, Dúan Sée, (fourth month); and so on through the twelve.

The Siamese have two cycles, one within the other. The greater is twelve years, the smaller ten. The name of the former is Pee, the latter Sök. Every year of each kind of cycle has its own specific name.

The years of the cycle of 12 are :—

| | |
|------------------|-------------------------|
| 1st. Pee Ch'boat | <i>year of the Rat</i> |
| 2nd. Pee Ch'albó | " " <i>Cow</i> |
| 3rd. Pee K'an | " " <i>Tiger</i> |
| 4th. Pee T'aw | " " <i>Rabbit</i> |
| 5th. Pee Marong | " " <i>great Dragon</i> |
| 6th. Pee Maseng | " " <i>small Dragon</i> |
| 7th. Pee Mameea | " " <i>Horse</i> |
| 8th. Pee Mamea | " " <i>Goat</i> |
| 9th. Pee Wawk | " " <i>Monkey</i> |
| 10th. Pee Raka | " " <i>Cock</i> |
| 11th. Pee Chaw | " " <i>Dog</i> |
| 12th. Pee Kōön | " " <i>Hog</i> |

The years of the cycle of 10 are :—

| | | | |
|------------|------------------|---------------|-------------------|
| Eka sök | 1st of the cycle | Ch'aw sök | 6th of the cycle. |
| T'o sök | 2nd " " | Sapp'a sök | 7th " " |
| T'o sök | 3rd " " | Aatt'a sök | 8th " " |
| Treeni sök | 4th " " | Nöpp'a sök | 9th " " |
| Benya sök | 5th " " | Samrett'i sök | 10th " " |

In writing the number of their Era, the name of each cycle, as it chances to be, is always given in the same connection.

Every Siamese is taught to remember carefully the name of each year of the cycle of 12, and by no means to forget the name of the particular year, moon, day of the moon, and day of the week in which he was born. So that at any time, when he would count up the number of the years he has lived, he begins by repeating the names of the years in succession from the one that gave him birth, until he comes back again to his birth-year, keeping tally with his fingers. Thus he counts on until he makes another cycle of twelve, more or less, as the case may be in regard to his age.

He can tell quite certainly whether his age is within the first cycle of 12, or the second, third, or fourth; but if he be upwards of 60 years old, he is liable to get bewildered in his reckoning, the want of the habit of counting his years by the year of the Era in which he was born. This the Siamese never do.

The Siamese sacred Era is reckoned from the time it is supposed Buddh died, which was 2,400 years at the full moon in May, 1866. This reckoning is never used except in their religious matters. It is denominated Pōōta Sakkarat (Era of Buddh). Their civil Era, called Choolá Sakkarat (little Era) is reckoned from the time when Pra Rooang, a Siamese king of great celebrity, established it, and that was 1,227 full years in March, 1866. Siamese in writing their dates always show first the year of their Era; second, the day of the week; third, the day of the waxing or waning moon; fourth, the number of the month; fifth, the names of the year; and, sixth the particular year of the cycle of 10. Their mode of showing the day of week, day of moon, and month is very concise.

WEIGHTS, MEASURES, &c.

TABLE OF SIAMESE MONEY.

| | | | |
|--------------|------|----------------|------------|
| 4 P'eis | make | 1 Fu'ang | \$0.076 |
| 2 Fu'ang | " | 1 Sälü'ng | 0.150 |
| 4 Sälü'ngs | " | 1 Bät or Tical | 0.600 |
| 4 Bäts | " | 1 Tämlü'ng | 2.400 |
| 20 Tämlü'ngs | " | 1 Ch'äng | 48.000 |
| 50 Ch'ängs | " | 1 Hap | 2,400.000 |
| 100 Hap | " | 1 Tara | 24,000.000 |

NOTE.—The standard of weight being the coin of the country, weights are designated by the same terms. A Tical weighs 236 grains Troy.

The Siamese standard of weight is just double that of the Chinese, and goods are bought and sold in Bangkok more by the Chinese than the Siamese standard.

LONG MEASURE.

| | | | |
|----------|------|---------|-------------------------------|
| 1 Niws | | = | $\frac{1}{3}$ inch |
| 12 Niw | make | 1 K'u'p | $9\frac{3}{4}$ " |
| 2 K'u'ps | " | 1 Säwk | $12\frac{1}{2}$ " |
| 4 Säwks | " | 1 Wah | 78 " |
| 20 Wahs | " | 1 Sen | 130 feet. |
| 400 Sens | " | 1 Yot | $9\frac{7}{8}$ statute miles. |

NOTE.—Timber is bought by the Yok, which is 64 Säwk in length, by 1 Säwk in width=36,864 Siamese inches, being equivalent to 169 square feet.

DRY MEASURE.

| | | | |
|---------------------|------|-----------------|-----------------------|
| 1 Tānan | | = | $1\frac{1}{2}$ pints. |
| 20 Tānans | make | 1 Täng | 15 " |
| 25 Tānans | " | 1 Sat | |
| 100 Tängs or 80 Sat | | 1 Kean (Coyan.) | |

NOTE.—A Kean is 20 Piculs. A Picul is $133\frac{1}{2}$ lbs. Avoirdupois.

TABLE OF EXCHANGE.

| Salungs per dollar. | For \$100. | Cents to each Tical. | Salungs per dollar. | For \$100. | Cents to each Tical. |
|------------------------|----------------------|--------------------------|------------------------|----------------------|--------------------------|
| 6. = | 150. Tls. or | 66.66 $\frac{1}{2}$ Tls. | 6.6 = | 165. Tls. or | 60.60 $\frac{1}{2}$ Tls. |
| 6.025 | 150.62 $\frac{1}{2}$ | 66.39 | 6.625 | 165.62 $\frac{1}{2}$ | 60.37 |
| 6.050 | 151.25 | 66.11 | 6.650 | 166.25 | 60.15 |
| 6.075 | 151.87 $\frac{1}{2}$ | 65.84 | 6.675 | 166.87 $\frac{1}{2}$ | 59.92 |
| 6.1 | 152.50 | 65.57 | 6.7 | 167.50 | 59.70 |
| 6.125 | 153.12 $\frac{1}{2}$ | 65.30 | 6.725 | 168.12 $\frac{1}{2}$ | 59.48 |
| 6.150 | 153.75 | 65.04 | 6.750 | 168.75 | 59.27 |
| 6.175 | 154.37 $\frac{1}{2}$ | 64.71 | 6.775 | 169.37 $\frac{1}{2}$ | 59.04 |
| 6.2 | 155. | 64.51 | 6.8 | 170. | 58.82 |
| 6.225 | 155.62 $\frac{1}{2}$ | 64.26 | 6.825 | 170.62 $\frac{1}{2}$ | 58.61 |

HONGKONG.

(From the "Colonial Office List.")

Hongkong is one of a number of islands called by the Portuguese "Ladrones," or Thieves, from the notorious habits of the old inhabitants; it is situated off the south-eastern coast of China, at the mouth of the Canton River, about 40 miles east of Macao, between $22^{\circ} 9'$ and $22^{\circ} 1'$ N. lat., and $114^{\circ} 5'$ and $114^{\circ} 18'$ E. long. This island is an irregular and broken ridge, stretching nearly east and west; its broken and abrupt peaks rising sometimes to a great height above sea level. Its length is about 11 miles, its breadth from 2 to 5 miles, its area rather more than 29 square miles. It is separated from the mainland of China by a narrow strait, known as the Ly-ee-moon Pass, which does not exceed half a mile in width. The opposite peninsula of Kow-loon has been ceded to Great Britain by a Treaty entered into by Lord Elgin in 1861 with the Government of China; it now forms part of Hongkong. The general aspect of the Colony has been described as extremely beautiful. It possesses one of the most magnificent harbours in the world, surrounded by picturesque hills rising between 3,000 and 4,000 feet high, and offers a *coup d'œil* which blends the wild scenery of Scotland with the classic beauty of Italy, and enough of the tropics to heighten the effect. The City of Victoria extends for four miles at the base of the hills, which protect the south side of the harbour, and contains upwards of 6,000 houses of stone and brick. The residences of the foreign merchants are numerous, and most of them are large, substantial, and handsome mansions. Being built on the slope of the hills facing the sea, the general aspect of the town is perhaps more striking and picturesque from the water than that of any other city in the east, whilst many of the streets are now shaded with well-grown and handsome trees.

The Colony was first ceded to Great Britain in January, 1841; the cession was confirmed by the Treaty of Nankin, in August, 1842; and the charter bears date 5th April, 1843.

But Hongkong perhaps comes more properly under the designation of a great commercial depôt than that of a Colony; it is valuable to Great Britain mainly as a factory for our commerce with China, and as a military and naval station for the protection of that commerce; it possesses an excellent harbour, affording convenient, safe, and commodious anchorage for shipping. Its distance from Singapore is about 1,520 miles.

The occupation of Hongkong at its outset was effected at considerable cost to the Imperial funds, the vote from Parliament in the year 1845 being nearly £50,000, in addition to military expenditure.

Hongkong may be considered to have paid its local establishments since 1854. The Government is administered by a Governor, aided by an Executive Council, composed of the Colonial Secretary, the Officer Commanding the Troops, the Attorney-General, and the Hon. Cecil Smith. The Legislative Council is presided over by the Governor, and is composed of the Chief-Justice, the Colonial Secretary, the Attorney-General, the Treasurer, and four unofficial members nominated by the Crown on the recommendation of the Governor.

There is a Police force in the Colony, numbering 650 men, of whom 110 are Europeans, 176 Indians, and 340 Chinese.

Hongkong is the centre of trade in many kinds of goods. Amongst the principal may be noticed opium, sugar, and flour produced in Tungkoon. Salt, earthenware, oil, amber, cotton and cotton goods, sandalwood, ivory, betel, vegetables, live stock,

granite, &c., &c. The principal transactions in the tea and silk trade are also controlled by firms residing in Hongkong.

As Hongkong is a free port, it is impossible to give a correct return of imports and exports, but the enormous extent of the trade with which it is connected may be approximately guessed at by the fact that the amount of Foreign and British Tonnage entering and leaving the port annually, averages two millions of tons. To this must be added the immense fleet of native craft of all sizes and forms, by which much of the coasting trade of the Chinese Empire is carried on, and also that of Siam, Cochin China, and the Straits. The number of native vessels—independent of several thousand smaller boats, which visit Hongkong annually—is about 52,000, with a tonnage of nearly 1,300,000, raising the total tonnage, foreign and native, of arrivals and departures in each year, to upwards of two millions and a half. From these figures, some idea of the movement and commercial activity which pervades this great centre of Eastern commerce may be formed.

A Stamp Tax was introduced by the Government (December 1866), and is now in operation.

The annual average rainfall is 71 inches, while the average range of the thermometer is from 43 to 89 for the past five years.

Hongkong pays £20,000 a-year to the Imperial Government as military contribution.

| GOVERNORS. | | Revenue. | Expenditure. |
|---|------|----------|--------------|

| 1871. Sir Richard G. MacDonnell, K.C.M.G. C.B. | | | |
| 1872. Sir Arthur Kennedy, K.C.M.G., C.B. | | | |

| Population. | | | |
|------------------------|--------------|---------|---------|
| European and American. | Chinese, &c. | Total. | |
| 1862 | 1,604 | 121,907 | 123,511 |
| 1872* | 4,931 | 117,054 | 121,985 |

Trade and Commerce.

The commercial intercourse of Hongkong—virtually a part of the commerce of China—is chiefly with Great Britain, the United States, and Germany, Great Britain absorbing about one-half of the total imports and exports. There are no official returns of the value of the imports and exports of the colony from and to all countries, but only mercantile estimates, according to which the former average four, and the latter two, millions sterling.

The extent of the commercial intercourse between Hongkong and the United Kingdom is shown in the following table, which gives the value of the total exports from Hongkong to Great Britain and Ireland, and of the imports of British and Irish produce and manufacture into Hongkong, in each of the five years 1869 to 1873:—

| Years. | Exports from Hongkong to Great Britain. | Imports of British Produce into Hongkong. |
|--------|---|---|
| 1869 | £281,932 | 2,130,837 |
| 1870 | 281,159 | 3,407,930 |
| 1871 | 367,944 | 2,787,714 |
| 1872 | 823,764 | 2,872,673 |
| 1873 | 783,475 | 3,411,968 |

The chief article of export from Hongkong to Great Britain in the year 1873 was tea, of the value of £396,184. The British imports into Hongkong consist almost entirely of manufactured textile fabrics, mainly cotton goods, in transit for China.

The subjoined table gives the value of the imports of British and Irish produce and manufactures from 1864 to 1873, exhibiting separately the imports into China

* Inclusive of naval, military, and shipping.

and into Hongkong, and jointly to both, so as to show the share of Hongkong in Chinese commerce during the period of ten years:—

| Years. | Imports of British Produce into China. | Imports of British Produce into Hongkong. | Total into China and Hongkong. |
|--------|--|---|--------------------------------------|
| 1864 | £3,093,865 | £1,618,867 | £4,711,478 |
| 1865 | 3,603,595 | 1,548,698 | 5,152,293 |
| 1866 | 5,090,074 | 2,387,017 | 7,477,091 |
| 1867 | 4,996,469 | 2,471,809 | 7,468,278 |
| 1868 | 6,312,175 | 2,185,972 | 8,498,147 |
| 1869 | 6,842,840 | 2,130,837 | 8,973,677 |
| 1870 | 6,139,633 | 3,407,930 | 9,547,563 |
| 1871 | 6,628,236 | 2,787,714 | 9,415,950 |
| 1872 | 6,624,511 | 2,872,673 | 9,497,184 |
| 1873 | 4,882,701 | 3,411,968 | 8,294,669 |

It will be seen that the British trade with Hongkong underwent great fluctuations in the ten years from 1864 to 1873, but which corresponded throughout with the general Chinese commerce, differing only in so far as showing but a slight increase in the value of the British imports coming direct to China during this period, and about a doubling in those arriving by way of Hongkong.

(From the China Pilot.)

Hongkong Island.—About 9 miles long, N.W. by W. and S.E. by E., 2 to $5\frac{1}{2}$ miles broad, and with an area of about 29 square miles, lies between Lamma Island and the main, from which it is separated by a narrow channel a quarter of a mile wide, named Ly-ee-moon Pass. The appearance of the island is somewhat picturesque, but on the whole it is generally barren and unprepossessing. It consists for the most part of rocky ranges, on the highest summit of which, Victoria Peak, 1,825 feet above the sea level, at the north-west part of the island, is a signal station, which communicates with the town of Victoria on the north and the ocean on the south. The island was first ceded to Great Britain by the treaty of Canton, in January, 1841, and again by the treaty of Nanking in August, 1842. The British settlement of Victoria is on its north side, nearly abreast of Kowloon Point, the extreme of the peninsula of the mainland which forms the west side of Kowloon Bay, and which was ceded to Great Britain by the treaty of 1860. Water abounds everywhere, and is supplied to shipping by tanks.

The shores of Hongkong are indented by numerous bays, of which the most considerable are on its south-east shore. There is good anchorage throughout the entire channel between the island and the main, except in the Ly-ee-moon Pass, where the water is deep: but the best anchorage is in Hongkong Roads, in front of the Settlement, where the depth is from 5 to 9 fathoms, over good holding ground. During the Typhoon months the anchorage in the northern part of the roads is considered preferable, in consequence of the shelter afforded by Kowloon peninsula to the north-east, the point from which the wind blows hardest. The inner anchorage in Victoria Bay is in 6 and 7 fathoms water, about half a mile off shore, abreast the ordnance jetty, where a vessel will be sheltered from the eastward by Kellett's Island and the rocks off east or Matheson Point, and be out of the strength of the tide.

Docks.—There is excellent dock accommodation in Hongkong. The "Hope Dock" at Aberdeen, and the "No. 1 Dock" at Kowloon, both belonging to the Hongkong and Whampoa Dock Company, are capable of taking vessels of over 400 feet in length, and with a draught of 24 feet. There are also several minor docks and slips, which leave nothing to be desired in the facility with which vessels can be refitted in the shortest time; possibly in this respect, being unequalled by any other port of equal extent in the world.

Tides.—It is high water, full and change, in Hongkong Roads at 10h. 15m., and springs rise about $4\frac{1}{4}$ feet. The tides around the island are irregular, flowing and ebbing without any apparent change of direction at the surface, and sometimes there appears to be only one tide in 24 hours.

Directions.—Hongkong Roads are generally approached by sailing vessels from the westward, on which side it is protected by Green Island and Kellett Bank, which extends nearly $1\frac{1}{2}$ miles northward from the latter island, and carries a depth of 31 fathoms. It is sometimes approached from the eastward through the Ly-ee-moon Pass during the N.E. monsoon, but the winds are generally baffling under the high land.

When abreast of Green Island, if the vessel be of heavy draught, keep the peak of Lamma Island (Mount Senhouse, 1,143 feet high) open westward of Green Island S. $\frac{3}{4}$ E. until Devil's Peak (on the mainland near Ly-ee-moon Pass) is in the line with the white rock on the south point of Won-chu-chan, or Stone-cutter's Island, when a S E. by E. course will lead northward of Kellett Bank, and direct for the anchorage.

Vessels of proper draught can proceed over Kellett Bank or through the 4 fathoms channel between Green Island and the south part of the bank, by passing about $1\frac{1}{2}$ cables northward of the island, and then steering for the roads.

The narrow channel between Green Island and Hongkong may be taken if a fresh, fair wind blows right through.* Many sailing vessels have used it, amongst which were H.M.'s ships *Modeste*, *Wellesley*, and *Vernon*. It has depths of 10 to 12 fathoms in the middle, shoaling to 8, 6, and $4\frac{1}{2}$ fathoms after passing the small islets eastward of Green Island.

Tytam Bay and Harbour.—There are several small bays on the southern shore of Hongkong, all of which are safe for small vessels; but at the south-east part of the island is a deep inlet, named Tytam bay, $2\frac{1}{2}$ miles deep, $1\frac{1}{4}$ miles wide at entrance, free from danger, and carries a depth of 10 to 16 fathoms. Tytam Head, the western point of entrance, is a high bluff, with 13 and 14 fathoms near it; from thence the western shore of the bay trends about N. by E. three-quarters of a mile to a small sandy bay, with a rocky islet fronting the beach. About half a mile northward of the islet the land forms a round projecting point, and northward of this point is a large bay, with a sandy beach, in which is Tytam village.

Tylong head, or Cape D'Aguilar, off which are two green islets, form the eastern point of entrance to Tytam Bay, and from thence the eastern shore of the bay bends round to the northward for 2 miles, and terminates in a small inlet, called Tytam Harbour, carrying 4 to 6 fathoms, but its head, to the northwest, is shoal and rocky. This bay would be useful to a vessel in the event of her being near Wag-lan at the close of the day, with the probability of a dark and tempestuous night, for by running in she will at any rate be snug, even if there should be a typhoon during the night.

Water.—At the head of Tytam Harbour there is a rivulet of fresh water, which, however, cannot be procured without inconvenience when the tide is low. Water may be obtained at Tytam village, on the western shore of the bay.

Tides.—There is little tide in Tytam bay, and, like all the places hereabouts, it is difficult to fix the time of high water, owing to the variety of channels and the wind greatly influencing the tidal streams; but the rise and fall is about 7 or 8 feet at springs, and about 3 and 4 feet at neaps. The ebb sets to the eastward between Lo-chau and Hongkong.

* J. W. King, Master of H.M.S. *Wellesley*, 1842.

THE STAMP ORDINANCES.

ORDER,

9th June, 1868.

1.—It is hereby ordered that the Stamps to be used under Ordinance No. 12 of 1866, and Ordinance No. 5 of 1868, shall be :—

2.—First, Adhesive Stamps of the respective values of 2 cents, 3 cents, 25 cents, 30 cents, 50 cents, \$1, and \$1.50; and, secondly, impressed or embossed Stamps of the respective values of 2 cents, 10 cents, 15 cents, 25 cents, 30 cents, 50 cents, 75 cents, \$1, \$1.50, \$2, \$2.50, \$3, \$4, \$4.50, \$5, \$6, \$6.50, \$8.50, \$10, \$10.50, \$20, \$25, \$40, \$50, and a Stamp bearing the words *Adjudication Fee Paid*.

3.—All impressed Stamps shall be made and impressed in the Stamp-office in the city of Victoria, on either paper or parchment, and shall be of the form and size of the specimen Stamps enclosed in a case for public inspection under the seal of the Colony, which case shall be kept at the Stamp-Office.

4.—Each of the seven kinds of Adhesive Stamps afore-mentioned shall be of the form, size, and material of the specimen Stamps enclosed in a case for public inspection under the seal of the Colony, which case shall be kept at the Stamp-Office.

5.—The Stamps for Bank Cheques under Section III. of the Schedule to *The Stamp Amendment Ordinance*, 1868, may be adhesive Stamps.

6.—Adhesive Stamps may be used for Bills of Exchange, when drawn out of the Colony, as specified in section 3 of the said Schedule, and under authority of the 11th clause of *The Stamp Ordinance*, 1866, provided always that the Stamp on Bills of Exchange not exceeding \$100 drawn out of the Colony shall be 30 cents until further notice:—and provided also that Adhesive Stamps may be used for receipts and discharges under section 11 of the Schedule to *The Stamp Amendment Ordinance*, 1868. Nothing, however, herein contained shall prevent its being lawful to use impressed Stamps for any of the foregoing purposes.

7.—Stamps shall be impressed or embossed at the Stamp-Office, and Adhesive Stamps sold between the hours of 10 A.M and 3 P.M. every day, authorised holidays excepted.

The Stamp Duty payable on an instrument in writing under seal, ordinarily termed a Servant's Security Bond, is 50 cents.

STAMP OFFICE RULES.

1.—Office hours are from 10 to 3.

2.—Applications for Impressed Stamps must be made on a requisition supplied gratis.

3.—Payment must be made on requisition.

4.—Requisitions will be executed as received. When they cannot be completed at once, a time will be named for completion and a receipt given for the goods, which will be delivered on its presentation.

5.—All goods and change should be examined before being removed. No question as to wrong counting or of weight or goodness of money will be entertained afterwards.

6.—*Spoiled Stamps on unexecuted Instruments.*

a.—Allowance will be made for Stamps upon Instruments spoiled by error in the writing :

b.—Or defaced by accident :

c.—Or rendered useless by unforeseen circumstances before completion.

7.—The claim for such Stamps must be made by Affidavit within Six Months after spoiling.

8.—*Spoiled Stamps on executed Instruments.*

a.—Allowance will be made for Stamps on Instruments found unfitted for the purpose originally intended by error therein :

b.—Or which cannot be completed in the form proposed because of the death of any person :

c.—Or because of refusal of signature.

9.—Claims for Stamps on executed Instruments must be made within Six Months after signature, the substituted Deeds, if any, being produced duly stamped.

10.—Stamps on Bills of Exchange or Promissory Notes when signed by the drawer or maker will be allowed if they have not been out of his hands, and have not been accepted or tendered for acceptance.

11.—Bills, &c., wherein any error has been made will be allowed though accepted or tendered for acceptance, provided the claimant produces the Bills substituted within Six Months after the date of the spoiled ones.

12.—Applications for allowances will be entertained every Tuesday and Thursday, from 11 to 3.

13.—Documents spoiled in stamping will be destroyed, the applicants providing the additional paper, &c.

14.—Stamps will be impressed upon any part of the Documents where practicable with security to the Revenue, a point to be decided by the Collector.

15.—Forms may be left at the Office to supply deficiencies in counting, or to replace those spoiled in counting.

16.—All Impressed Stamps will be dated.

DIGEST OF PENALTIES

UNDER

THE HONGKONG STAMP ORDINANCES

(12 OF 1866 AMENDED BY 5 OF 1868).

| | |
|--|--------------------------|

| Within six weeks, double..... | } the deficient duty. |
| Within four months, triple | |
| After four months, 20 times..... | |

THE STAMP AMENDMENT ORDINANCE, 1868.

I.—The amendments hereinafter stated shall be made in The Stamp Ordinance 1868.

(1.) There shall be inserted in clause 6 of section XVI. after the word *satisfied*, the words *by affidavit*, and the word *shall* shall be substituted for *may* in the same clause.

(2.) In section XX. there shall be substituted for the words *ten dollars* the words *one dollar*.

(3.) From section XXIII. there shall be omitted the words *if required*. and for the words *case of refusal* there shall be substituted the words *default thereof*.

II.—It shall be lawful for all Courts and Magistrates, and for the Collector of Stamp Revenue, and all persons employed for the sale or distribution of Stamps, and they are hereby required to take possession of any deed, instrument, or writing as to which any offence or breach of the provisions of the laws relating to Stamps may appear to have been committed, and to deliver the same to be used in any prosecution or proceeding in any Court.

III.—Section VI. of The Stamp Ordinance, 1866, shall be repealed, but such repeal shall not affect any proceeding pending or any right that has arisen or may arise, or any penalty incurred or that may be incurred, in respect of any transaction, act, matter, or thing done or existing prior to, or at the commencement of this Ordinance, under or by virtue of the said section.

IV.—For every deed, instrument, or writing, which shall be executed from the time when this ordinance shall come into force, and which shall be of any of the kinds specified as requiring Stamps by the Schedule annexed to this Ordinance, except as provided hereafter in section V. of this Ordinance, there shall be payable to Government a Stamp Duty of the amount indicated in the said Schedule to be proper for such deed, instrument, or writing. Whenever the word *Schedule* occurs in any part of The Stamp Ordinance, 1866, except section VI. thereof, it shall be read as having reference to the Schedule annexed to this Ordinance.

V.—Has had its effect.

VI.—This Ordinance may be cited for all purposes as *The Stamp Amendment Ordinance*, 1868, and shall commence and take effect on such day as shall hereafter be fixed by proclamation under the hand of the Governor.

ADDITIONAL ORDER.

IN THE SUPREME COURT, SUMMARY JURISDICTION.

The Stamp Duty payable on Foreign Attachment Bonds shall be as follows:—

| | |
|---|--------|
| In every case of \$500 and upwards..... | \$5.00 |
| “ “ \$250 and under \$500..... | \$2.50 |
| “ “ under \$250..... | \$1.00 |

SCHEDULE.

LIST OF STAMP DUTIES

Under Ordinance No. 5 of 1868.

| | |
|---|--|
| 1.—Agreement, or any minute or Memorandum of an Agreement not being under seal or of the nature of an obligation for the payment of money, and not specially charged with duty under this Schedule, whether the same be only evidence of a contract or obligatory upon the parties, and Brokers' notes or any Document having reference to the sale or purchase of any Merchandise given by any broker..... | 50 cents. |
| NOTE.—If two or more letters are offered in evidence, to prove an Agreement between the parties who shall have written such letters, it will be sufficient if any one of such letters be Stamped as an Agreement. | |
| EXEMPTION. | |
| Label, slip, or memorandum containing the heads of any Fire or Marine Insurance to be effected. | |
| Memorandum, Letter, or Agreement made for or relating to the sale of any Goods, Wares, or Merchandise, or to the sale of any Shares in any Public Company, not being a Broker's Note or Document given by a Broker. | |
| Seaman's advance Note, or Memorandum or Agreement made between the Master and Mariners of any Ship for Wages. | |
| Emigration Contract. Passage Ticket. | |
| 2.—Bank Notes, or other obligations for the payment of money, issued by any Banker or Banking Company in the colony for local circulation, and payable to bearer on demand..... | A Stamp Duty of two-thirds per cent. per annum per \$100 of the average value of such Notes in Circulation. To be collected monthly on a Statement thereof to be furnished by each Banker or Banking Company to the Collector of Stamp Revenue at the end of each month. |
| 3.—Bills of Exchange, Promissory Notes, or other obligations for the payment of money not included in the last preceding article, and not being Cheques or Orders for the payment of money at sight or on demand..... | Not exceeding \$100, if drawn singly.....\$0.30 if in sets, for each part of a set.....\$0.15 Exceeding \$100 and not exceeding \$3,000— If drawn singly.....\$1.00 If in sets, for each part of a set.....\$0.50 Exceeding \$3,000— If drawn singly.....\$1.50 If in sets, for each part of a set.....\$0.75 |
| Bank Cheques payable on demand to any person, to Bearer, or Order, 2 cents each. | |
| NOTE.—Cheques drawn out of, but payable in the colony, to be treated as Bills of Exchange. | |
| 4.—Bill of Lading, or Ship's Receipts where Bills of Lading are not used, for each part of every set..... | 10 cents. |
| EXEMPTION. | |
| Bills of Lading for any Goods or effects shipped by any Government Officer on account of Government. | |
| 5.—Bond or other obligation concerning Respondentia and Bottomry, and Average Statement or Bond where no Statement is drawn up..... | 50 cents for every \$1,000 or part of \$1,000. |

6.—Charter Party or any Agreement or Contract for the charter or hiring of any sea-going ship or vessel.....

7.—Transfer of Shares or Stocks in any Public Company. (Scrip Certificates to be exempt).....

8.—Power of Attorney.....

9.—Note of Protest by any Commander or Master of a vessel.....

10.—Any Notarial Act whatsoever not otherwise charged in this Schedule.....

11.—Receipt or discharge given for the payment of Money, or in acquittal of a debt paid in Money or otherwise, when the sum received, discharged, or acquitted exceeds \$10.....

EXEMPTIONS.

Letter sent by Post acknowledging the arrival of a Currency, or Promissory Note, Bill of Exchange, or any security for Money.

Receipt or Discharge written upon or contained in any Bill of Exchange, Promissory Note, Deed, or other instrument charged with duty under this Schedule and duly Stamped, and Receipts for pay and allowances of persons in the service of the Government, whether Civil, Naval, or Military.

12.—Probates and Letters of Administration, with or without the Will annexed. (Administration Bonds exempt)

13.—Conveyance, Assignment, or Instrument of any kind or description whatsoever not specially charged with duty under this Schedule, executed for the transfer for valuable consideration of any property, moveable or immovable, or of any right, title, claim, or interest in, to, or upon the same.....

Deed or other Instrument of gift, or of exchange or settlement, where no money consideration or a merely nominal money consideration passes.....

EXEMPTION.

Transfer by mere Endorsement of a duly Stamped Bill of Exchange, Promissory Note, or other negotiable Instrument, or of a Bill of Lading, and transfer by Assignment of a Policy of Insurance.

14.—Mortgage

Where in a Mortgage the sum secured is unlimited.....

15.—Re-assignment of any Mortgaged Property.....

16.—Letter or other Instrument of Hypothecation accompanying deposit of Documents of title to any property.....

17.—Duplicate or counterpart of any Deed, Instrument, or Writing of any description whatever chargeable with duty under this Ordinance.....

If the duty chargeable on the original exceeds \$1, but does not exceed \$10.....

If the duty chargeable on the original exceeds \$10, but does not exceed \$20.....

If the duty on the original exceeds \$20.....

| | | |
|---------------------------------------|-----------|--------|
| Vessel not exceeding..... | 200 Tons, | \$2.00 |
| Exceeding 200 & not exceeding, 300 .. | 300 " | \$3.00 |
| " 300 .. | 500 " | \$4.00 |
| " 500 .. | 750 " | \$5.00 |
| " 750 .. | 1,000 " | \$6.00 |

Every 100 Tons over 1,000 Tons, \$0.50

Copy Charter under... 200 .. \$1.00 each.

" above... 200 .. \$2.00 ..

Duty to be calculated on Registered Tonnage 50 cents for every \$500 or fraction of \$500.

\$2.

25 cents.

\$1.

3 cents.

The same *ad valorem* Duty as on a Conveyance, to be calculated upon the value of the Estate and effects for or in respect of which such Probate or Letters of Administration shall be granted, exclusive of what the deceased shall have been possessed of or entitled to as a Trustee for any other person or persons, and not beneficially.

25 cents for every \$100 or part of \$100 of the Consideration Money or amount secured up to \$1,000, and \$2 for every \$1,000 or part of \$1,000 after the first \$1,000.

\$25.

\$1 on first \$1,000 or part of \$1,000, and 50 cents on every other \$1,000 or part thereof.

\$25.

25 cents on every \$5,000 or part of \$5,000.

\$1.

The same duty as the Original when such Duty does not exceed \$1.

\$1.

\$2.

\$3.

LIST OF STAMP DUTIES.

Provided that such duplicate or counterpart Stamp shall be affixed upon the production of the original Deed, Instrument, or Writing bearing its proper Stamp, and not otherwise.

18.—Lease, or Agreement for a Lease, made for a term of years, or for a Period determinable with one or more life or lives, or otherwise contingent, in consideration of a sum of money paid in the way of premium, fine, or the like, if without rent.....

The same *ad valorem* Stamp as on a Conveyance. See Article 13.

19.—Lease, or Agreement for a Lease, of any Land, House, Building, or Tenement at a Rent, without any payment of any sum of money by way of fine or premium.....

When the Rent for the year shall not exceed \$250.....

Above \$ 250 and under \$ 500.....

" \$ 500 " \$1,000.....

" \$1,000 " \$2,500.....

" \$2,500 " \$5,000.....

for every additional \$1,000 or part.....

Exempt, all Rentals under \$50.

20.—Lease, or Agreement for a Lease, of any Land, House, Building, or Tenement, stipulating for a Rent, granted in consideration of a fine or premium.....

NOTE.—A Lease, executed in pursuance of a duly Stamped Agreement for the same, shall require a Stamp of One Dollar only, to be affixed on production of such Agreement.

21.—Every Instrument in writing under seal not otherwise specially charged with duty under this Schedule..... \$10.

22.—Policies of Marine Insurance and every copy..... 10 cents each.

23.—Articles of Clerkship or Contract, whereby any person shall first become bound to serve as a Clerk, in order to his admission as an Attorney or Solicitor..... \$50.

24.—Warrant of Attorney..... \$5.

25.—Co-partnership, Deed, or other Instrument of..... \$5.

26.—Cognovit and Arbitration award..... \$1.

GENERAL EXEMPTIONS.

Any Deed, Instrument, or Writing of any kind whatsoever, made or executed by or on behalf of Her Majesty or of any Department of Her Majesty's Service, or whereby any Property or Interest is transferred to, or any Contract of any kind whatsoever is made, with Her Majesty, or any person for or on behalf of Her Majesty, or any such Department as aforesaid.

NOTE.—The foregoing exemption does not extend to any Deed, Instrument, or Writing executed by the Registrar of the Supreme Court as Official Administrator, or by a Receiver appointed by any Court; or to any Deed, Instrument, or Writing rendered necessary by any Ordinance or by the order of any Court; neither does it extend to a sale made for the recovery of an arrear of Revenue or Rent, or in satisfaction of a Decree or Order of Court, in any of which cases the purchaser shall be required to pay, in addition to the purchase money, the amount of the requisite Stamp.

| 1 Year & under. | 3 Years & under. | Over 3 Years. |
|-----------------|------------------|---------------|
| \$ c. | \$ c. | \$ c. |
| 0.25 | 0.50 | 1.00 |
| 0.50 | 1.00 | 2.00 |
| 1.00 | 2.00 | 4.00 |
| 2.00 | 4.00 | 8.00 |
| 5.00 | 10.00 | 20.00 |
| 1.25 | 2.50 | 5.00 |

A Stamp of value equal to the joint value of the Stamps for a conveyance in consideration of the fine and a Lease for the Rent.

SECOND SCHEDULE OF ORDINANCE No. 1 of 1873.

Scale of Stamp Duties under Section XI.

Section XI. of Ordinance No. 5 of 1874, Schedule E. :-

| | |
|---|---------|
| Upon every application for a certificate under article II. of the regulations contained in schedule B of the said Ordinance, a stamp duty of.... | \$1.00. |
| Upon every certificate granted under article I. of the said regulations, a stamp duty of..... | \$1.00 |

MACAO.

HISTORICAL NARRATIVE.

(From *Dungstedt's "Historical Sketch."*)

A few years later (1560) Europeans settled at Macao; by what right, is a topic of contention. At the arrival of the Portuguese, there issued from innumerable islands, rocks, and creeks, along the sea-coast of China, a daring set of adventurers, less intent on exercising lawful industry than bent on plundering peaceful, industrious inhabitants. Merchants were particularly molested, because a successful attempt on them insures to the chief and his crew a valuable booty to be shared among them. That the trade might be uninterrupted, the Portuguese determined to annoy and exterminate, if possible, this race, almost as vexatious to them as to the Chinese. Having cleared the gulf of China of the free-booters who had infested it, the Portuguese sought a quarrel with a Regulo, or potentate of the island Heang-shan. The grievances that provoked the war are not mentioned, nor is it known when the hostilities began, how long they continued, nor even the particulars of their termination. It is maintained that after a vigorous resistance, Regulo was subdued and the island conquered, and the victors put in possession of their share. As no covenants or treaty of peace ever appeared in public, it remains an absolute impossibility to determine the ultimate limits of the conquest the Portuguese pretend to have made on that island. A rock towards the south-east, constituting the boundary of Heang-shan, was of course comprehended in the conquest. On that, the Portuguese fixed their abode, being particularly well suited for the carrying on of domestic and foreign trade. A town, called *Cidade nome de Deos de Macao*, rose by degrees on the peninsula; not by the grace and concession of any of the Emperors of China, for such is denied, but by the success of the chivalrous arms of Portugal. The above is copied from a ministerial *memorandum*, drawn up fifty years ago. It is contradicted by the subsequent assertion. Chinese chronologists have noted down that in the 30th year of the reign of Kea-tsing (1535), one foreign vessel appeared, and in 1537 another, on the coast of the gulf of China. The merchants required and obtained permission to land and to raise a few huts for temporary shelter, and the drying of goods which had been damaged on board the ships. That this accommodation was granted between 1522, when the Portuguese were driven from San-chan, and the time taken up for negotiating a reconciliation, is by no means unlikely. During the lapse of eighteen or twenty years (1537 to 1557) the Chinese and the Portuguese met again, it seems for trade, either at Tamao or Lampacao. In 1557 the parties concurred at Macao, because the Mandarins permitted strangers to fix themselves on a desert island then known by the denomination of Amangao. Such is the statement Fernao Mendes Pinto has given us in his peregrinations or voyages. This assertion is not contradicted by any of the contemporary authors who wrote of the first exploits of their countrymen in China. The gentlemen to whom the terms could not be unknown were Jesuits, for a few of them came hither in 1562. With them, Mathew Ricci, coming (1528) from India, spent some time, and must have been intimate: being a man of learning and of an enquiring spirit—a Jesuit—he naturally enough asked on what footing foreigners stood in respect to China. Had they been settled by right of conquest, he would undoubtedly have recorded it in the Italian Journal he kept, the cause of the war, and the articles of pacification. Trigaulo, who gathered from it many interesting notices, contained in "*Christiana expedito and apud Sinas*," adverts merely to the impression the fleet under the command of Feruao Peres d'Andrade left on the mind of the Mandarins, whose duty it was to protect the coast from foreign invasion. John de Barros, who never saw Asia, wrote three "*Decades of Asia*," a work continued by Diogo de Couto; both of these historians speak of the progress the Portuguese made in India

and China. Alvaro Semedo, who governed in 1621 a Roman Catholic Church at Nanchang-foo, in his "Relatione de la-China," and Manoel de Faria e Sousa, in his "Asia Portuguesa," allege that the Portuguese obtained permission to inhabit Macao because they had cleared the island of pirates. Diogo de Couto came in 1556 to India; he had served eight years in the army, visited Lisbon, and came back to Goa. Philippe I., proclaimed in 1581 King of Portugal, commanded him to continue de Barros' "Asia," making him Royal Chronicler of India. The silence of Diogo, an accurate engineer, proves evidently the fallacy of the above allegation. According to De Guignes, in his "Voyage to Peking," the pirates were vanquished in 1563, an epoch at which the Portuguese had been six years in possession of Macao. The mighty sea-rover, denominated by him and others Chang-si-lao, kept the provincial capital, Canton, besieged, when Kea-tsing was on the throne—according to other writers, during the reign of Kang-he. May not Chang-si-lao be a corrupt and foreign pronunciation of Chin-chi-lung,* the father of Chin-chin-kiang, or Hoxinga, by changing Chun to *Chung*, chi to *si*, lung to *lao*? For, in the historical abridgment by Duhalde of those sovereigns, the man with whom either one or the other must have been contemporary is not mentioned. However, one of these two Emperors rewarded, it is pretended, the Portuguese, by whose valour and victory the siege of Canton was raised, the pirates destroyed, and their chief slain, granting to them in perpetuity the island on which Macao is actually standing. But as no authentic act of donation ever was produced, the cession, resting merely upon traditional presumption, shall we not be justified in agreeing with Frigauld, that the Chinese, having by degrees overcome the panic at first sight excited by the tremendous Portuguese ships, petitioned the Emperor to grant to foreign merchants a residence on a peninsula, or rather a rock, constituting a part of a greater island. "To this proposal the sovereign acceded, stipulating that the strangers should pay tribute or ground-rent, and duties on their merchandise." Of this opinion are both the Chinese and Tartars. Neither a few chops—official documents—suspended in the Senate house, nor those two hundred which Jesuits translated at Goa, by command of Marquis de Alorso, who governed Portuguese India in 1744, prove anything to the contrary; we therefore willingly side with La Clede, who, in his "Historia de Portugal," avers "the Portuguese demanding leave to move to a desert island, called Macao, it was granted, and some time after liberty to build a few houses;" and we likewise agree with the opinion of Dom† Alexandre da Silva Pedroso Guimaraens, Bishop of Macao, who, as acting-governor, wrote (1777) to the Senate, "by paying ground-rent, the Portuguese acquired the temporary use and profit of Macao, *ad libitum*, of the Emperor.

Unwilling to deprive its natural subjects of the advantages of trade, and still more unwilling to expose them to the violence of rapacious and unruly guests, the Government resolved (it appears from the concession) to place the strangers in such situation that they may feel their dependence on the empire, without forcing it a third time to the extermination of men and the destruction of property. In my opinion it is safer to ascribe the possession of Macao to Imperial bounty rather than to conquest; for the conquerors would be compelled to give up the place were the Chinese Government but to command the tradesmen, mechanics, and servants, to leave off their business and retire, and thereupon issue an order not to furnish the inhabitants with provisions. The first settlers were in a less precarious state, if it be true that many of them held, in the conquered part of Heang-shan, landed property, for its produce rendered them (the Portuguese) independent of China so far as the supply of the necessaries of life went. By whose hand the earth was cultivated is not mentioned in the memorandum we have noted; but it blames the owners for supineness in not strenuously opposing the Chinese when they began to encroach upon the domain of Portugal. The intruders appropriated to themselves not only the whole of this fruitful island, but they likewise drew across the isthmus that separates it from Macao, a wall—it was constructed in 1573, for the protection of the country, and to prevent their children from being kidnapped. In the middle of the

* The Dutch and Spaniards established on the island of Formosa knew the man under the name of Ikoan Equan, Iquon Equam, and by the name of Nicolas, for he had been baptized it is said.

† *Dom* is an honorary epithet in Portugal, written *Dm*.—*Don* is Spanish.

barrier is a door of communication, called *porta do cerco*, guarded by a few Chinese soldiers and an officer, that no stranger may pass this boundary. In the beginning the door was, according to Dominio Navarette,* opened but twice a month, then, every fifth day for selling provisions to the secluded; at present it opens at daylight.

Topographical Description.

Macao is situated 22 deg. 11 min. 30 sec. north latitude, and 113 deg. 32 min. 30 sec. east of Greenwich, on a rocky peninsula, renowned, long before the Portuguese settled on it, for its safe harbour; then by foreign writers denominated Ama-ngao, port of Amã, in reference to an idol temple near the Bar Fort, the goddess of which is called Ama. In 1583 the Portuguese gave it the name "Porto do nome de Deos," and "Porto de Amacao," the etymology of Macao: later it was also called "Cidade do nome de Deos do porto de Macao," at present it is *Cidade do Santo nome de Deos de Macao*. The Mandarins, I am told, designated the use of the port by the character Gaou-mun, and that of the city by Gaou-king; Aou-mun is a provincial pronunciation of Gaou-mun.† This hilly settlement is dependent on the Keang-shan-keen, city of the third class, in the province of Kwang-tung, but separated from the large island Heang-shan by a wall drawn across the neck of land from shore to shore. The principal ranges of hills, one running from south to north, the other from east to west, may be considered as forming an angle, the base of which leans upon the river or anchoring place. Its level ground, with the exception of a few habitations of European architecture, is filled by the Bazaar, and a great many Chinese shops for tradesmen and mechanics: the traveller's attention is roused by a variety of public and private buildings, raised on the declivities, skirts, and heights of hillocks. On the lofty mount eastward, called Charil, is a fort, enclosing the hermitage of Na. Sra. de Guia; westward is Nillau, on the top of which stands the hermitage of Na. Sra. de Penha: entering a wide semi-circular bay, which faces the east, on the right hand we have the fort San Francisco; on the left, that of Na. Sra. de Bom Parto; and before us, on landing, a broad, airy, spacious quay—"Praya Grande," and many pretty houses, among which is the residence of the Governor, and that of the Minister.‡ To the east of the town is a field, "Campo," which stretches itself out to the very boundary wall that closes the prison of Macao. The territory is scarcely eight miles in circuit. Its greatest length, from north-east to south-west, being under three miles, and its breadth less than a mile.|| The Portuguese estimate the Peninsula at a little more than a league in length; its mid-breadth at less than a mile. The first geometrical delineation of Macao was undertaken and executed by Manuel de Agote, chief factor of the Royal Spanish Philippine Company in China, and Mr. De Guignes the younger. You will find Agoute's map inserted in the collection of drawings appertaining to the "Account of the Embassy of Lord Macartney to China," and that of De Guignes in his "Voyage à Peking." In 1808, by command of the Supreme Government, a map was made by Joaquim Bento da Fonceca. The peninsula is nearly surrounded by sheets of water, subject to the influence of ebb and flood from the gulf of China. The regular monsoon winds, the streams of salubrious water bursting out at the foot of Charil and Nillau, and the benefit of a well stocked Bazaar, render Macao wholesome and comfortable, though now and then—but seldom—it is shaken by the convulsive motions of earthquakes; it is oftener visited by dreadful typhoons, a species of hurricane.

* *Tratados de la Monarchia de China*, 1678.

† In books and manuscripts we have found it designated by the expressions Gau-kim, Ghau-kin, Gau-min.

SHANGHAI.

GENERAL CONDITION OF THE FOREIGN SETTLEMENT.

Division of Settlement.—The foreign settlement is divided into three quarters—the French, English, and American, or Hongkew. These designations are given them for easy identification, and do not represent them as being quarters specially set apart for the location of the nationals whose names they take. Foreigners or Chinese can alike reside in any quarters they may elect.

The settlement is cosmopolitan, the community is cosmopolitan, as a reference to the enumeration of the population as given below will show.

Government.—The Government of the place may be divided under two heads: the judicial or paternal part, remaining entirely in the hands of the local foreign officials appointed by Western Governments, who deal with civil and criminal cases. The English Supreme Court is the only Imperial Court. The other Courts are Consular, with the exception of the Mixed Court. The Executive, or Local Government, is carried on by Municipal Councils, of which there are two.

In the extreme south of the settlement the French have a Council, while the affairs of the Anglo-American sections are managed by one Council. The first bears the title of "Conseil de l'Administration Municipale Française," while the official designation of the latter is the "Council for the Foreign Community of Shanghai."

The Land Regulations.—Are the rules by which the Local Government is carried on. They were originally drawn up by—

1st. Captain Balfour, Her Britannic Majesty's Consul in 1845-46, and known as the "British Land Regulations."

2nd. By Mr. (now Sir) Rutherford Alcock, Her Britannic Majesty's Consul; Mr. R. C. Murphy, United States' Consul; and M. Edan, French Consul, in 1854, with the assent of the foreign community of the time; and—

3rd. More recently, in 1865 and 1869, amended and enlarged by the foreign community, passed by the foreign local Consul, and finally approved of by the Foreign Ministers at Peking in 1869.

Thus these Regulations, which may be said to take the form of the Charter of Incorporation of western cities, form our local *lex tenæ*.

The French Consul, M. de Montigny, obtained in 1849 from the Chinese Government an assignment of space within which French subjects should be at liberty to acquire land and buy residences, &c.

In 1862, from an extension of the limits of the ground originally placed at the service of the French, the French Consul established a separate Council, which continued to administer its affairs under the Regulations framed jointly with his English and American colleagues by M. Edan, in 1854.

In 1868 a new code of regulations came into force on the French side.

There are, therefore, two sets of Regulations in force, viz., the "Réglement d'Organisation Municipale de la Concession Française," and the "Local Regulations and Bye Laws," for the division of the foreign settlement north of the Yang-King-Pang. Both regulations have the same end in view. The powers to elect a Committee or Council to levy taxes at public meetings, for the maintenance of the peace, good order, and government of the settlement.

The regulations for the French side, so far as I am aware, work well. In regard to those for the Anglo-American districts, the Municipal Council in their Report for the year ended 31st March, 1871, say:—

"The affairs of the Municipality are in a prosperous state. The financial condition is satisfactory; the expenditure is 1,120 taels in excess of the receipts. This

was to be expected, seeing the unlooked-for burden falling upon the funds during the year just concluded. The affairs of the Municipality have been administered under the Land Regulations and Bye laws, 1870, and seeing the ease with which the rules have worked, the Council cannot refrain from congratulating the community upon having a code of local laws adapted to its requirements, as well as popular with the residents, both foreign and native.

These rules came into operation on the 15th March, 1870.

In Shanghai may be seen the essence of local self-government. They are, however, laws to which foreigner and native are alike amenable.

The foreign Councils administer the municipal affairs. They are elected by the community. They tax themselves, and, although Chinese do not sit at the Council meetings, their interests are largely represented and cared for by an influential and wealthy class of foreigners, having considerable interest in Chinese house property.

Composition and Constitution of Councils.

| | French. | English. | American. | German. | Danish. | Total. |
|-----------------------------|---------|----------|-----------|---------|---------|--------|
| French Council... .. | 5 | 2 | 3 | 1 | ... | 9 |
| Anglo-American ditto | ... | 4 | 2 | 2 | 1 | 9 |
| | 5 | 4 | 5 | 3 | 1 | 18 |

The Consul-General for France is President of the French Council.

The Anglo-American Council elects its own Chairman and Vice-Chairman, and is free from Consular influence in its deliberations.

One of the foreign Consuls is generally a Councillor, but then he takes his seat at the Board in the capacity of a ratepayer, not a Consul. The money qualification is necessary for a Councillor on the French side, while for the Anglo-American side a Councillor must be ratepayer to the amount of 50 taels annually. The Municipal Councillors on the French side are nominated for two years; half of the number retire each year. The Anglo-American Council holds office for one year only.

The election of Councillors for both districts takes place in April and May in each year.

To facilitate the transaction of business each Council appoints its own Sub-Committee, viz.:—Finance, Public Works, and Watch Committees.

The number of voters in the Anglo-American quarter is about 309, and for the French side 220, exclusive of Chinese. The qualification of voters differs in the two quarters. On the French side the qualification consists in the voter owning, in virtue of a regular title-deed granted by any foreign Consul, land within the limits of the French concession, or occupying as renter the whole or part of an estate on the Concession, and paying an annual rental of at least 1,000 francs, or residing on the Concession for more than three months, and being able to prove an annual income of 4,000 frs.; while the voter in the Anglo-American district must be an owner of land to the value of not less than 500 taels, whose annual payment of taxes must be 10 taels, or a householder paying an assessed rental of at least 500 taels. This latter franchise of course allows a preponderance of votes to the French side. The numbers of the voters at the late election of Councillors were as follows:—

| | |
|------------------------------|-----|
| French side..... | 204 |
| Anglo-American district..... | 197 |

Communications between the Councils and the Chinese authorities pass through the hands of the foreign Consuls.

Foreign Consular Representatives.

The following Powers are represented by Consuls at this port:—Austria, Hungary, Belgium, Denmark, France, Italy, Netherlands, North German Confederation, Russia, Spain, Sweden and Norway, United States, Great Britain.

THE PHILIPPINES.

MANILA.

Manila, the Capital of Luçonia, the largest of the Philippine Islands, and the principal settlement of the Spaniards in the East, is in lat. $14^{\circ} 36' 8''$ N., long. $120^{\circ} 53\frac{1}{2}'$ E. Population about 100,000, of whom from 4,000 to 5,000 may be Europeans. Manila is built on the shore of a spacious bay of the same name, at the mouth of a river navigable for small vessels a considerable way into the interior. The smaller class of ships anchor in Manila Roads, in five fathoms, the north bastion bearing N. 37° E., the fishery stakes at the river's mouth N. 18° E., distant about a mile; but large ships anchor at Cavite, about three leagues to the southward, where there is a good harbour, well sheltered from the W. and S.W. winds. The arsenal is at Cavite; which is defended by Fort St. Philippe, the strongest fortress on the islands. The city is surrounded by a wall and towers, and some of the bastions are well furnished with artillery.

Though situated within the tropics, the climate of the Philippines is sufficiently temperate; the only considerable disadvantage under which they labour in this respect being that the principal part of the group come within the range of the typhoons. The soil is of very different qualities: but for the most part singularly fertile. They are rich in mineral, vegetable, and animal productions. It is stated in a statistical account of the Philippines, published at Manila in 1818 and 1819, the entire population of the islands amounted to 2,249,851, of which 1,376,222 belong to Luçonia. But this return is believed to have been under-rated; and the population having increased very considerably in the interval, it is now estimated at about 4,000,000. There are some, but not many, Chinese settlers, and but few Europeans. The natives are said to be the most active, bold, and energetic of any belonging to the Eastern Archipelago. "These people," says a most intelligent navigator, "appear in no respect inferior to those of Europe. They cultivate the earth like men of understanding; are carpenters, joiners, smiths, goldsmiths, weavers, masons, &c. I have walked through their villages, and found them kind, hospitable, and communicative; and though the Spaniards speak of and treat them with contempt, I perceived that the vices they attributed to the Indians ought rather to be imputed to the government they have themselves established."—(*Voyage de M. de la Perouse*, c. 15.)

The trade of the Philippines has increased very rapidly of late years. The imports principally consist of cotton stuffs and yarn, iron and hardware, woollens and worsteds, machinery, wines and spirits, furniture, arms and ammunition, apparel, slops, &c. By far the largest portion of the imports is supplied by the United Kingdom; but owing to the high discriminating duties in favour of goods imported on Spanish bottoms, a large proportion of the British goods are brought in Spanish ships from Singapore. In 1856 the imports of British produce were valued at £1,575,000, and the exports of Philippine produce on British account at £1,370,000. The Americans export produce worth about £1,000,000; and as their imports are a mere trifle, the balance is extinguished by drafts on London. Manila has also an extensive and increasing trade with China, Singapore, Java, Australia, India, &c.

The quantity of rice and paddy shipped to China from the islands cannot be ascertained with any degree of exactness; what goes from Manila is very small, because, before arriving there, it has, by its transport expense, added to the price at which it is obtained in the districts where it is produced, which, of course, prevents its being shipped from the capital. Probably, however, about a million coyans, each of which, one with another, weighs about a China picul, or $133\frac{1}{2}$ lbs., may be annually exported. The export is regulated by the supposed scarcity or abundance of food in the country.—*M' Micking's Manila*, p. 270.

The Philippine Islands contain an area of 52,647 English square miles, with a population, in 1873, of 4,319,269 souls, of whom about one-fourth are slaves. The islands, more than 500 in number, are divided into 27 provinces, 13 of which are on the Isle of Luzon, 4 on the Isle of Negros, 3 on Panay, and 3 on the Isle of Mindamao.

The chief articles of produce of the Philippine Islands are sugar, hemp, and tobacco. The total exports to Great Britain in 1873 were of the value of £1,420,000, and the imports of British produce of £428,145. The chief article of exports to Great Britain in 1873 was unrefined sugar, of the value of £653,583. Of the British imports in 1873 the value of £229,959, or considerably more than one-half, was represented by cotton manufactures. The commercial intercourse between the Philippine Islands, as well as the rest of the Colonial Possessions of Spain, and the United Kingdom, has been steadily declining for a number of years.

Port Charge.—On foreign vessels, 2rs. per ton, and one-half on such as neither load nor unload cargo, besides fees amounting from \$5 to \$15, according to the size of vessels.

IMPORT DUTIES.

The following Tariff was published in the *Madrid Government Gazette* of May 6th, 1874, and came into operation on the 6th November of that year:—

EXPOSICION.

Sr. Presidente,—La Intendencia general de Hacienda de las Islas Filipinas fue autorizada por el artículo transitorio del decreto de la Regencia de 16 de Octubre de 1870 para resolver las reclamaciones que en el Archipiélago se hicieron antes de 1.º de Julio de 1871, respecto á los derechos fijados en los Aranceles de Aduanas aprobados por el referido decreto.

Haciendo uso de esa autorizacion rigen dichos Aranceles desde el referido 1.º de Julio con las modificaciones que se juzgaron oportunas, y estas han sido ahora sometidas á la aprobacion del Poder Ejecutivo.

Las variaciones introducidas por la Intendencia no afectan al pensamiento en que se inspiró la reforma, que con feliz éxito fué realizada por el citado decreto de 16 de Octubre de 1870 al eximir de derechos los objetos de reconocida influencia en el desarrollo de la cultura y riqueza del Archipiélago, y se limitan á la inclusion de ciertas partidas, disminucion de otras y variacion de algunos tipos de adeudo. Estudiado detenidamente tan importante asunto, el Ministro que suscribe cree que debe aprobarse lo acordado por las Autoridades de las Islas, y que las adjuntas tarifas, en las cuales están comprendidas las modificaciones que este Ministerio ha creído conveniente hacer, comiencen á regir á los seis meses de publicadas dichas tarifas en la *Gaceta de Madrid*; y entiende tambien que dispensadas ya del pago de derechos las mercancías conducidas directamente á Filipinas en bandera española desde los puertos de la Peninsula, Islas adyacentes ó Antillas españolas, es de sancionar el acuerdo del Gobernador superior civil que dispensa igualmente de derechos á esas mercancías cuando vayan por el Canal de Suez, aunque trasborden á buque extranjero.

Fundado en estas consideraciones el Ministro que suscribe, oído el Consejo de Filipinas, el de Estado, y de acuerdo con el de Ministros, tiene el honor de someter á la aprobacion del Sr. Presidente del Poder Ejecutivo de la República el siguiente proyecto de decreto

Madrid 27 de Abril de 1874.

El Ministro de Ultramar,

VICTOR BALAGUER.

DECRETO.

Como Presidente del Poder Ejecutivo de la República, de acuerdo con el Consejo de Ministros, á propuesta del de Ultramar, oído el Consejo de Filipinas y el de Estado, Vengo en decretar lo siguiente:

Artículo 1.º Se aprueba el acuerdo del Gobernador superior civil de las Islas Filipinas, fecha 26 de Junio de 1871, en virtud del que, con sujecion al artículo

adicional del decreto de 16 de Octubre de 1870, se plantearon desde 1.º de Julio del mismo año de 1871, con algunas modificaciones, los Aranceles de Aduanas acordados por dicho decreto.

Art. 2.º Se aprueba igualmente el acuerdo de la referida Autoridad dispensando del pago de derechos las mercancías españolas que se conduzcan á aquellas Islas por la via de Suez, aunque trasborden en el tránsito á bandera extranjera, siempre que hubieren salido de los puertos españoles en bandera nacional, lleguen con la misma al puerto de trasbordo, y sus mercancías vayan conducidas en los propios envases y con las marcas que tenían al ser despachadas por la Aduana de salida; debiendo ir acompañadas de la correspondiente documentacion justificante expedida por esta oficina.

Art. 3.º Los adjuntos Aranceles para las Aduanas de las Islas Filipinas comenzarán á regir á los seis meses de publicado el presente decreto en la *Gaceta de Madrid*.

Dado en San Martin de Abanto á veintinueve de Abril de mil ochocientos setenta y cuatro.

FRANCISCO SERRANO.

El Ministro de Ultramar,
VICTOR BALAGUER.

ARANCELES DE ADUANAS PARA LAS ISLAS FILIPINAS.

| ARANCEL DE IMPORTACION. | | | |

NOTAS.

(a.)

Del peso bruto de las mercancías que á continuación se expresan, se descontará por tara el siguiente tanto por 100 :

| | |
|---|-------------|
| Acero en cajas | 10 por 100. |
| Hoja de lata en cajas | 10 por 100. |
| Hierro, cobre y laton obrados en clavos, baterías de cocina y otros objetos análogos en barriles | 20 por 100. |
| Loza en cajas y barricas | 30 por 100. |
| — en canastas | 16 por 100. |
| Perfumeria, por todos los envases y empaques interiores | 25 por 100. |
| Vidrio y cristal en cajas y barricas | 40 por 100. |
| — en canastos | 20 por 100. |

(b.)

Las mantecas, los quesos, los pescados, el cacao, las féculas, las harinas, las conservas alimenticias, los dulces, el té, los fósforos, los aceites minerales y rectificadas, el petróleo y la bencina, pagarán con sus inmediatos envases.

La quincalla, cuchilería, cera y estearina labradas, los juegos y los aderezos adeudarán con inclusion del peso de los empaques, envueltas ó cajitas en que vayan colocados exceptuando los estuches de los aderezos que pagarán por la partida 79.

Las botellas que contengan aguardientes, licores, vinos ó cerveza, adeudarán por la partida 114, calculando el peso prudencialmente.

En los tejidos de todas clases y las puntillas, se incluirá para el adeudo el peso de las cintas y papel en que vayan colocados, excluyendo, sin embargo, las tablas y cartones en que aquellos artículos se presenten arrollados, y las cajas de carton ú otra materia que los contenga dentro del envase exterior. Por envase exterior se entiende el que está á la vista, cerrado el bulto.

(c.)

Están comprendidos en los derechos señalados á las partidas 27, 28, 29 y 30, y por lo tanto no adeudarán cantidad alguna, todos los objetos que prudencialmente se consideren necesarios para la maniobra, comodidad y uso particular de los buques, atendidas las clases y condiciones de estos últimos.

Servirán de base para el aforo de los buques que se importen del extranjero las certificaciones de arqueo libradas por los Maestros mayores de ribera, la Autoridad local de Marina y el Administrador de la Aduana ó un delegado suyo, con sujecion á lo prevenido en las órdenes del Almirantazgo de 21 de Diciembre de 1868 y 16 de Junio de 1869.

Las embarcaciones que sean reparadas en el Archipiélago para ponerse en perfecto estado de navegar y pretendan sus dueños nacionalizarlas, pagarán por medio de la siguiente proporcion: el valor del buque rehabilitado es á los derechos de Arancel que le corresponden segun su tonelaje, como el valor que tenia antes de rehabilitarse es al cuarto término que expresará los derechos que deben exigirse.

Si embargo, si la diferencia entre este término y los derechos íntegros del Arancel no llega al 10 por 100, se cobrarán íntegros los derechos; y si pasa del 75 por 100, se cobrará el 25 por 100 de los mismos.

(d.)

Los materiales de todas clases que se introduzcan para construir y reparar embarcaciones se admitirán con franquicia de derechos, previas las justificaciones que la Administracion de Aduanas juzgue precisas en cada caso.

(e.)

La calificacion de joyería ó alhajas comprende todos los objetos de lujo pequeños, preciosos por su trabajo ó por su materia, destinados generalmente al adorno de las personas de ambos sexos.

La calificacion de vajilla comprende todos los utensilios de metales finos destinados al servicio de los templos ó á objetos de uso doméstico.

(f.)

Para calcular la mezcla de la pasamanería, se excluirá el peso de los armazones interiores.

Para el aforo se incluirán dichos armazones cuando sean de materias textiles; pero si fueren de madera, pasta ú otra materia análoga, se descontará por razon de tara el 10 por 100 del peso total de la pasamanería.

(g.)

El ópio está prohibido á la importacion, y solo se permitirá el que en cortas cantidades se destine á las oficinas de farmacia, y todo el que introduzcan los contratistas de esta droga en quienes la Hacienda ha subrogado su venta exclusiva en aquellas provincias, en cuyo caso adeudará por la partida 80.

Los productos químico-medicinales serán reconocidos a su importacion con arreglo á los reglamentos de Sanidad.

(h.)

Los tejidos con mezcla adeudarán con sujecion á las siguientes reglas:—

1.^a Los de hilo, lana y seda que contengan mezcla de algodón en una parte únicamente de la urdimbre ó de la trama, serán considerados para el adeudo como de hilo, lana ó seda sin mezcla.

2.^a Los tejidos de lana y seda ó borra de seda cuya urdimbre ó trama sea de una de estas materias, adeudarán un quinto del peso como seda y cuatro quintos como lana.

3.^a Los tejidos de hilo y seda cuya urdimbre ó trama sea de una de estas dos materias, y los de algodón y seda cuya urdimbre ó trama sea toda de algodón, adeudarán cuatro quintos del peso como tejidos de hilo ó de algodón, segun los casos, y un quinto como sedería. Se exceptúan las felpas y terciopelos que adeudarán tres quintos como algodones y dos quintos como sedería.

4.^a Los tejidos de hilo y lana cuya urdimbre ó trama sea de una de estas dos materias, adeudarán tres quintos del peso como lanería y dos quintos como lencería.

5.^a Los tejidos de hilo y algodón cuya urdimbre ó trama sea toda de algodón, adeudarán la mitad del peso como tejidos de algodón y la otra mitad por las partidas correspondientes de lencería.

6.^a Los tejidos que, teniendo toda la trama ó urdimbre de hilo, de lana, de seda ó de algodón, contengan en la otra parte de la tela (urdimbre ó trama, segun los casos) dos ó mas de estas materias, adeudarán con sujecion á las reglas anteriores, considerándolos compuestos de hilo, de lana, de seda ó de algodón y de la materia que en la otra parte del tejido devengue menores derechos.

7.^a Los tejidos de punto, los encajes y las puntillas con mezcla, adeudarán por la materia que domine.

(i.)

Las ropas hechas, á excepcion de las de punto, adeudarán por su total peso el derecho señalado á la tela de que se compongan en su parte exterior, y además 50 por 100 del mismo derecho. Se considerarán como ropas hechas, no sólo las completamente concluidas, sino tambien las á medio coser, y las hilvanadas.

(j.)

Las telas bordadas á mano y á máquina y las que tengan mezcla de metales finos ó imitados, pagarán el derecho correspondiente á la clase de tejidos á que pertenezcan, y además un 50 por 100 del mismo derecho.

(l.)

En los adeudos al avalúo, los interesados consignarán en las declaraciones el valor de las mercancías. Si la Administracion no se conformase con estos valores, por considerarlos muy bajos, oyendo á los Vistas y al Contador, fijará el avalúo que crea corresponde, y en el caso de no conformarse con este los interesados, podrán los empleados adquirir la propiedad de los efectos, mediante el pago á los dueños de la cantidad consignada en la declaracion, y un 10 por 100 más. En este caso será de cuenta de los empleados el pago de los derechos sobre el valor fijado por ellos y no aceptado por el introductor, asi como las pérdidas y ganancias que resulten de la venta de los efectos; para lo cual la Hacienda pública abonará la cantidad necesaria en concepto de anticipo reintegrable.

Por las diferencias en el valor de los géneros en los despachos al avalúo, pagará el dueño de ellos la mitad más del derecho sobre el exceso, cuando se conforme con el aumento hecho por la Administracion.

En los despachos por avalúo referentes á mercancías de las que una ó más especies tengan señalados derechos fijos en el Arancel, se cuidará de que las mercancías que se despachen en esta forma nunca paguen menor derecho que el establecido como cuota fija á la especie de la calidad inferior inmediata.

(m.)

Las armas de fuego de todas clases, los cartuchos y cápsulas, no podrán introducirse sin previa orden del Gobierno general civil de las Islas.

GENERAL ADMINISTRATION OF CUSTOMS OF THE PHILIPPINE ISLANDS.

Customs Regulations to be observed by Masters, Supercargoes, or Consignees of vessels arriving in Ports of the Philippine Islands, and penalties incurred for infringement thereof.

Rule I.—Masters of national or foreign vessels arriving at these islands from a foreign port will deliver their manifests to the visiting officer of the Customs on his arrival on board, under penalty of a fine of two hundred dollars. For all manifests not certified or attested to by the Spanish Consul of the port of their departure, a fine of one hundred dollars will be imposed; and if the manifests are not extended in conformity with the first Rule of the Royal Order of the 1st July, 1859, a fine of twenty-five dollars will be demanded.

Rule II.—The master or supercargo of every vessel is enjoined to be present at all the visits which may be made on board by the preventive service of the port, on entering or leaving, and on loading or discharging, and he must sign the document or certificate of such visit as well as the commander of the carbineers who makes the visit and his accompanying witness. Should it not be possible for such master or supercargo to go through this formality, it will devolve on the officer next in rank to act in his stead.

Rule III.—Masters of vessels arriving from foreign ports with any cargo on board are allowed 30 hours at Manila, and 48 at Cavite, after the entrance visit, to send in to the collector of Customs a manifest in triplicate, written in Spanish on plain paper and of uniform size, containing the name of the master, that of the ship, the number of Spanish tons burthen, the place whence the ship comes, a description by marks and numbers both in writing and in figures of each package of goods on board, the names of the consignees, the weight, measurement, and kind of goods stowed in bulk, their names, with every distinctness, those of the goods to remain in transit on board, and those to be discharged; specifying if possible the articles to be left in bond and those for consumption, the provisions, spare stores, armament, and coals, in case the vessel be a steamer, and, finally a note stating that the vessel does not carry any other goods, and that none of those manifested are prohibited from fear of contagion. After which the master will affix his signature making himself answerable to the Custom-house for the correctness of the manifest.

Rule IV.—If from stress of weather or other extraordinary cause, the master of a vessel may have been obliged, during the voyage, to throw overboard part of the cargo, a declaration to that effect must be made, and a specification will be required of the marks, numbers, and quantities, as far as possible, of the cargo so jettisoned, and if the Customs authorities demand it, the Log Book shall be presented to prove the facts.

Rule V.—Every master and supercargo subscribing a manifest is allowed four days after its delivery to augment or otherwise rectify the same, in case there be any omission or other error: this must also be done in triplicate. Should any omission be noticed in the manifest after this period and the one allowed, packages found to be omitted shall be seized, and the subscriber of the manifest fined an amount equal to the value of the goods omitted provided such value does not exceed four hundred dollars, and in case it does, and should the goods omitted belong or be consigned to the subscriber of the manifest, the fine will then be quadrupled. If on the contrary it should be found at the completion of the discharge that the number of packages noted in the manifest and in the subsequent corrections be in excess of the cargo actually on board, the master shall be fined one hundred dollars for each package found short, unless the same should be cargo in bulk: in which case the duties thereon will be quadrupled. Finally, if on visiting the vessel any package be found, which is not declared and included in the manifest, it shall be confiscated, and the captain fined in a sum quadruple that of the duties which the said goods should pay to the Customs.

Rule VI.—The captains of vessels arriving from another Spanish port, and duly provided with a freight list from the Custom-house of that port, will deliver this

document to the collector here immediately on his arrival, and will only manifest such, the above freight list explaining the reasons that have caused its omission, and specifying moreover the provisions and stores existing on board, unless the ship should have called in at a foreign port and there received cargo, in which case manifests shall be presented, and the same formalities observed as laid down in the preceding rules, for all documents in proof from the Spanish Consul at the port touched at.

Rule VII.—Whatever may be the nationality of a vessel, and whencesoever she comes either laden or in ballast, her captain, crew, and passengers are not allowed on coming ashore to take with them anything without a special permission from the Collector of the Customs, except a writing case, and such wearing apparel as can be carried in an open travelling bag or bundle which is to be examined by the carbineer on board, and by the one at the Captain of the Port's office.

Rule VIII.—The masters of national or foreign vessels who neglect to obey the provision made by Rule II. of these Regulations, shall forfeit fifty dollars, unless they can prove to the satisfaction of the Collector the causes which prevented it; and the master who shall present a manifest with any of the afore-mentioned requisites wanting, shall remedy the same as soon as the Collector of Customs orders it, otherwise the person who presents such manifest shall forfeit twenty-five dollars.

Rule IX.—Should the master of a vessel omit to include in the manifest the quantity of gold and silver, in coin or bullion, that may be on board, whatever its origin may be, or to give private information of it and its amount to the Collector of the Customs, he will be fined one per cent. on its value, always supposing the owners may not have declared it.

Rule X.—Any produce, goods, articles of use on board, or cargo of any kind whatsoever transferred from one ship to another in the bay, without permission of the Collector of the Customs, will be liable to seizure, as well as the lighter, launch, or other boat in which such transfer may be made, and the master of each vessel shall be fined five hundred dollars when the value of the merchandise or articles transferred does not exceed two hundred dollars; exceeding this sum, the fine will be one thousand dollars each, if the vessels are not the property of the masters, but being their property they will be confiscated, and the same course will be pursued when merchandise, or goods of any description are discharged without permission, and moreover the captains of vessels from which the merchandise or other effects are discharged shall be liable to the fine and penalties above-named.

Rule XI.—The master of every national or foreign ship entering a port open to trade in these Islands, in ballast or with cargo in distress or in transit, and those who may be obliged to put into a port not open to trade, are bound to produce their manifest or register as provided by the preceding Rule, and to fulfil the same duties as required by the Custom-house of Manila.

Rule XII.—Except in cases in which wrecks or unavoidable damage may occur, any foreign or national ship coming from sea discharging or loading any quantity of goods at a port not open to trade, will incur the confiscation of such goods, and in the contrary case he will incur the penalty provided by Rule X. for cases of fraudulent transshipment.

Rule XIII.—Masters of all vessels are obliged to supply the Custom-house officers during their stay on board with suitable lodgings, and allow them to have their meals at the second table, in compliance with the decree of the government of these Islands, dated 26th August, 1851.

SAILING DIRECTIONS FOR THE BAY OF MANILA.

At the entrances to the Bay the prevailing winds are, during the greater part of the year, from N. to E.; moderate during the first months of the monsoon but interrupted at times by strong Northerlies which last from one to three days: fresh when the monsoon is regularly established, particularly so from the outside of the entrances to the inside of Point Limay, from whence to the Bay they are more moderate, and it may be remarked that they are seldom light in the entrances and

fresh in the Bay at the same time; calm at the latter end of the monsoon, with squalls during the afternoon from S.E., S., and S.W., indicating the proximities of changeable weather, and winds from S. to W., which become established during the month of June; light N.E. and S.E. prevail now till 9 or 10 a.m., when the sea breeze sets in from S. and S.W. and W. during the intervals of the squalls, which are fresh from S.W., accompanied by thick, cloudy weather and rain. These squalls last six, eight, and ten days, and even as many as thirty, and from June to September; while they last, fine weather is seldom experienced.

At the beginning of the N.E. monsoon the land winds on the S.E. coast of the Bay are from the E.; from February they shift to S.E., and are generally fresh enough to raise a swell and oblige reefs to be taken in the sails, especially in Boca Chica (the northerly entrance), on account of the strong gusts which come down from the ravines on the Island of Corregidor; they commence about four or five p.m., extending from Point Fuego, on the southern coast outside the Bay, to Point Limay, on the northern coast inside the Bay, and cease before midnight; when these winds are unseasonably late they last longer, and sometimes till late on to the following morning; from April, they are generally very light. In the northern part of the Bay—entrance to Pampanga—the land wind shifts to the north about midnight, and when fresh at this spot it extends to all parts of the Bay; it ceases at sunrise, from which time the regular monsoon succeeds it according to the season.

Between the monsoons the winds are generally N.W. outside, but rarely extend inside the Bay, and during these times, especially from September to November, it is when the typhoons or hurricanes usually take place, and oftentimes without any previous warning, not even from the Barometers.

During strong N. or N.W. winds there are no land winds, but otherwise they may always be counted upon inside the Bay.

The tides are very moderate, and high water may always be counted upon between eleven and twelve o'clock at the entrance to Manila during conjunction or opposition, and half an hour earlier at the Island of Corregidor; during the rest of the month they are very irregular as to time and duration. The rise and fall never exceeds six feet. At the entrances to the Bay when the ebb tide is backed by river currents and strong N.E. winds together, a delay of 12 or 14 hours takes place in the flow.

During strong S. Easterly weather, the tides are also longer in flowing than in ordinary times. To the S.E. of the Island of Corregidor the waters meet and pass through both entrances, forming currents in direction of the Island of Cabra. With an ebb tide and winds N.E. vessels should not hug the Island of Corregidor too closely, tacking when necessary between Points Fuego and Limbones—where the current is less, or to the West of Corregidor, if entering by Boca Chica, which is the better entrance on a N.E. wind.

The coast both N. and S. of the Corregidor is quite free from all dangers up to Point Luzon on the North and Point Fuego to the South. Vessels can tack well up to the land, avoiding, of course, too near an approach.

The Monja has deep water all around and close up to it.

The Lechones are clean with the exception of one rock, which has six feet of water on it, about a cable's length from shore, and bearing S. 8 deg. W. from the most Easterly rock.

Outside the Corregidor there are the ports of Maraveles and Hamilo. The first to the N.W. of the Island (a plan of it is to be found on the chart of the Bay) is generally used as a halting place for tide or wind-bound vessels, anchoring on the Eastern side, and a look-out must be kept for the strong gusts which are felt sometimes on entering; during S.W. winds it is necessary to anchor on the sheltered or Western side. The port of Hamilo is a safe port, with an easy entrance, at the beginning of a typhoon; it is on the Southern coast at the bottom of the first Bay, between Points Fuego and Limbones—about five miles south of the latter. To find the anchorage, steer South from the entrance to Manila Bay till two small barren islands are sighted—the one to the North, near to the land, having the appearance of

an old fort in ruins; proceed between these islands or to the South of them, and when near to the ridge of the small pointed islands that cover the entrance, leave there to starboard—steering East and keeping the centre of the passage, in which there are 18 to 20 fathoms of water, with sandy bottom, until you reach a suitable anchorage,—8 to 9 fathoms will be found inside with a mud bottom, and 4 fathoms close in to the shore. Caution is required in making this port from the sea, as two barren islands further to the South than those just described might be mistaken for them; these are close to Point Fuego, where the coast bends to the S.E.; they afford no shelter, and are surrounded by a rocky bottom.

The coast of Maraveles is free from danger until it diverges to the North, from whence towards Pampanga, and then only within 3 to 4 cables' length from the shore, some rocks have been touched by vessels venturing too near.

The Island of Corregidor may be approached fearlessly on all sides but the Eastern, where a small pointed rock exists with a ridge extending South about half-way between the Island and Pulo Caballo.

There is a passage between Pulo Caballo and Corregidor, but it is not recommended.

The Fraile has deep water all around, and close up to it.

The Southern coast as far as the high land extends is clean, with the exception of some rocks about half a mile from the beach off the second point E. of the small Island Sinalan, in a line with the Fraile. On leaving the high land the lead will show shallow water very often, and vessels should not approach too near the low land in this vicinity. During Easterly and South Easterly winds, it is safe to approach the coast between Point Fuego and Limbones, and in short tacks get past the small Island of Sinalan, from whence a clear course opens to weather Pulo Caballo.

Vessels beating up Manila Bay should endeavour to reach the northern coast before night, so as to avail of the land breeze, which becomes weaker in proportion to the distance from the land,

St. Nicola's Bank is situated in a line with, and about half way between the Corregidor and the steeples of the Cavite churches; it is about $1\frac{1}{2}$ miles in circumference, and its least depth of water, one fathom, is on the N.E., increasing towards the N. and N.W. to 3, 6, 12, and 18 fathoms within a distance of one cable's length. The shoal is rock covered with sand, and its bearings (shoalest part) are as follows:—

| | | |
|---|-------|-------|
| From Telegraph Station on Corregidor..... | N. 72 | 35 E. |
| „ Pulo Caballo..... | N. 62 | — E. |
| „ Telegraph Station on Point Palibuyo (on S.E. coast).... | N. 24 | — W. |
| „ Mount Arayat..... | S. 1 | 47 E. |

With a free wind vessels may pass on the Southern side of the shoal—keeping Corregidor at West till the Telegraph Station on Point Palibuyo bears S.S.E., when a N.E. course must be followed; but all the coast line between Marigondon and Salinas is shallow water and foul.

The North and Eastern coasts are shallow, and the lead will indicate that the land, which is low and marshy, must be kept at a distance. Fishing stakes will be found here at long distances from the beach, but as long as the lead does not announce danger, the stakes, which are of bamboo and harmless, need not be noticed.

On the west side of the Bay from Point Limay up to the parallel of Mount Orion, a good anchorage will be found and shelter from the tempest of the S.W. monsoon. Without going too near the land, 10 to 12 fathoms will be found with a sandy bottom.

Vessels arriving at Cavite anchorage during Westerly gales, and desiring to communicate with the shore without delay should steer for Canaco—which is the Bay between Point Sangley (a low sandy beach) and the town of Cavite. To find the anchorage—steer for Point Sangley, giving it a moderate berth, and let go the anchor in 4 fathoms. This is a secure position, where vessels can be visited and

assisted if necessary by the authorities in weather that would render the Manila Bar impassable.

The only danger at Manila anchorage is at night, on nearing the Bar of the River Pasig. Eight fathoms will be found as long as the Lighthouse bears from N. to E., and continuing that course, vessels may choose their own anchorages; but in thick weather, it is advisable to anchor as soon as the lead marks under 8 fathoms. In the N.E. monsoon, vessels can anchor nearer in shore, because land winds prevail; but during the S.W. monsoon and between the monsoons when typhoons may be looked for, it is safer to anchor farther off, with two anchors N. and S., giving all vessels riding on one anchor only a wide berth.

Manila, 1st May, 1874.

RULES TO BE OBSERVED AT THE ANCHORAGES.

Captains must be careful when anchoring not to allow their anchors to become entangled with those of other vessels, and to leave these plenty of room for swinging: vessels infringing these rules will at once be required to change their berths.

Vessels occupying insecure or inconvenient berths must immediately change same on receiving notice to that effect from the Captain of the Port.

Vessels once at anchor must not change their berths without previous permission from the Captain of the Port, unless in case of urgent necessity, in which case notice of, and reasons for same, must be given to the Captain of the Port as soon afterwards as possible.

Boats proceeding from vessels at the anchorage to the shore should be provided with an anchor ready for use, in case it should be required.

No vessel is allowed to enter the River without previously obtaining permission from the Captain of the Port, who has to give the necessary instructions for the purpose and provide Pilots and any other assistance that may be required.

A fine of \$10 in each case will be imposed upon the Captain of any vessel leaving the River for Cavite without permission, and for not presenting himself at once on his arrival at, or before leaving, the anchorage of Canaco.

Vessels at the anchorage or entering the Bay in want of assistance may make use of the following Signals, which will be attended to, if practicable, by the Consignees or by the Captain of the Port. The National flag should be used, and, in case of two being required, any other will answer the purpose. When guns are fired as signals, a proper interval should be allowed to elapse between each discharge:—

SIGNALS.

| Assistance required. | Flags. | Number of Guns. |
|----------------------------|--|--------------------|
| A cable..... | 1 on the bowsprit..... | 1 |
| An anchor..... | 1 in the fore-rigging..... | 1 |
| An anchor and a cable..... | { 1 in the bowsprit..... 1 in the fore-rigging..... | { 1 1 |
| A launch..... | 2 at the foremast-head..... | 1 |
| Mutiny on board..... | 1 in the main rigging..... | 1 |
| Fire on board..... | 2 at the mainmast-head..... | 2 |

Manila, 1st May, 1874.

RULES TO BE OBSERVED BY VESSELS ENTERING THE BAY OF MANILA AND ITS PORTS.

1st.—All vessels entering the Bay are to hoist their National flags at the Corregidor, and immediately heave to should a Government barge make for them. The Captain who, weather permitting, shall refuse to heave to on being signaled so to do by a gun or otherwise, shall pay a fine equal in amount to double the cost of the ammunition expended. (N.B.—Vessels are not visited here in ordinary times.)

All vessels sailing in sight of the Ports of Manila or Cavite shall display their National flags, under a penalty of \$8.

2nd.—Until a vessel shall have been visited by the Port and Health Authorities, the Captain will be held strictly responsible for all the consequences that may arise from allowing anyone to board his vessel. Until admitted to free pratique he shall keep a quarantine or other flag at his foremast-head, and, for the mere act of allowing anyone on board before being so admitted, he shall pay a fine of \$250. Vessels already admitted to free pratique that may afford assistance to vessels arriving will be in the same category, must hoist the flag at the foremast-head, be re-admitted to free pratique, and be liable to the same fine and penalty for the infringement of this Rule.

3rd.—On the arrival of the Port Authorities the Captain shall present his Bill of Health from the last port he may have sailed from, and in case he should not have one, will have to extend a Certificate in which he must declare if any contagious disease existed at that port on the date of sailing, as also the state of health of all on board.

Passengers with their baggage should be ready on arrival to be examined by the medical officer of the Port if considered necessary, and answer any questions that may be put to them.

The Captain will also be required to present his Register in order that the name, nationality, Captain, tonnage, &c., may be noted, and he will also be required to state his port of sailing, ports of call, dates of sailing, destination, armament, cargo, consignees, and anything remarkable that may have occurred on the voyage. He will deliver a list of his crew and passengers, giving the professions and destinations of the latter, and whether or not they have passports, which must be given to the Police Officer who will be at hand to receive them, and any information the Captain can afford respecting them.

For all inaccuracies in the Health Certificate, number of crew and passengers, and for any false declaration as to the professions of the latter, the Captain shall pay a fine of \$250 for each offence, be held responsible for the result, and his vessel shall not be admitted to free pratique until he shall have complied with this Regulation.

The Captain shall deliver any Letters he may have brought to the Post-office authorities.

4th.—All vessels not admitted to free pratique, or that may be put in quarantine, will abide by the laws which will be explained to the Captain, who will see that the yellow or other flag be kept at his fore-topmast-head, and any infraction of this Regulation will subject the Captain to an immediate fine of \$500, and to be tried judicially for the offence.

5th.—The first duty of the Captain on landing is, under a penalty of \$5, to present himself to the Captain of the Port, who will direct him and his passengers to the proper authorities. Passengers of distinction are exempted from accompanying the Captain, and will be advised of the Customs of the Port on board.

6th.—At the anchorages no vessels are allowed to keep their guns loaded, and no firearms of any kind can be discharged without previous permission, except when done to ask for assistance as explained in the Anchorage Regulations. Captains will pay a fine of \$20 for each discharge, besides the expenses occasioned by sending off assistance, &c., in response from the shore.

7th.—All vessels must have a Consignee, who will guarantee the fulfilment of these Regulations to the extent of \$500, and the Captain must give in the name of such Agents within 30 hours of his arrival in Manila, or 48 hours if in Cavite or Cañaco, otherwise pay a fine of \$50 and be admonished.

8th.—To take in or discharge ballast, Captains must first obtain permission from the Captain of the Port, and will pay a fine as expressed in the annexed Tariff, No. 1, should said permission not be applied for and obtained before doing so, as also for discharging ballast in unauthorized places, and throwing it or any kind of rubbish overboard.

9th.—Any individual found boarding a vessel before it shall have been admitted to free pratique shall pay a fine of \$25, and the Captain of any vessel who shall

allow his boats to be used for such a purpose shall be fined \$50 and be liable for any other penalty the act may subject him to.

10th.—From 11 p.m. till daybreak no boats or bancas are allowed to traffic at the anchorages, unless with previously obtained permission or in case of urgent necessity. The Captain of the vessel whose boat shall be so used, and passenger by, or owner of, banca so offending shall pay a fine of \$25.

Vessels at anchor are at liberty to stop and detain all suspicious looking boats or bancas that may be found infringing this Regulation.

Sailors found on shore loafing, between 10 o'clock at night and daybreak, will be detained and punished in accordance with the laws and be held responsible for any disturbances they may cause.

11th.—Vessels entering the river must deliver up for safe keeping any Gunpowder they may have on board, and for every pound of Powder they may retain on board in opposition to this regulation, a fine of \$1 will be imposed.

12th.—After 8 o'clock at night, no fires or naked lights will be allowed on board vessels in the river, under a penalty of \$5.

It is absolutely prohibited to heat pitch, tar, tallow, or any other inflammable substance on board vessels, launches, or boats inside the river, and any person found infringing this Regulation will be fined \$25.

13th.—The armaments of vessels or any part of them, and cannons, when brought as ballast, cannot be landed, and he who shall attempt to infringe this Regulation will be fined and punished in proportion to the gravity of the offence.

14th.—The Captain of the Port being the proper authority for the chastisement of delinquents, any other person who shall inflict punishment on a native or other resident of the country for faults committed on board, shall be fined in favour of the sufferer in proportion to the amount of punishment inflicted.

15th.—No native can be detained on board against his will, and no contract entered into for the purpose of securing the services of a deserter or covering his retreat shall be considered binding.

16th.—A fine of \$100 in each case will be imposed upon any Captain who shall introduce or carry away a passenger without a passport.

No one is allowed to exchange from one vessel to another without authority from the Captain of the Port, and each person found infringing this regulation will be fined \$10, and be liable for the damages caused to the vessel he may have left.

The Consignees or Agents of vessels are responsible for any of the crew, who, on account of illness or any other cause, remain in the country without permission.

The Captains of vessels are bound, under a penalty of \$10 for each case, to notify the Captain of the Port of any desertions that may take place on board in order to their arrest, and should such notification be made on the eve of the departure of the vessel, the Consignees or Agents become responsible for all expenses incurred for their arrest and transportation from the country.

17th.—In case of the death of any individual on board a vessel, the Captain is bound to notify the Captain of the Port, state the cause of death, and ask permission for interment. A fine of \$24 will be imposed for the burial of a body without permission, and a like fine for throwing a body overboard, and the Captain will likewise be responsible for the consequences such an act may lead to.

18th.—The Captain of the Port will not despatch any vessel until he shall know that the Regulations of the Custom-house and Post-office have been attended to.

Any vessels leaving Port without being properly despatched shall pay a fine of \$2 per ton.

Vessels about to sail must indicate the intention with anticipation by hoisting a flag at the main-topmast-head, under a penalty of \$5.

19th.—Captains of vessels shall answer personally any summonses for their attendance that they may receive from the Civil authorities.

20th.—All vessels are bound to keep their anchor lights burning from Sunset to Sunrise, and delinquents will be fined \$5 and held responsible for the damages their carelessness in this respect may cause.

21st.—After a vessel's departure, the general intent of these Regulations will remain in force as against the Consignees or Agents, who may have guaranteed their fulfilment; the amount guaranteed will be collected and distributed in proportion to the amount of claims arising, and claimants will retain their action against delinquents should they return to this country.

22nd.—The penalties imposed under these Regulations will be doubled in case of a repetition of the offence, and offenders will be liable for all expenses incurred and be subject to indictment should aggravating circumstances render such a course necessary.

23rd.—All former Regulations and Tariffs not in accordance with the present are hereby abrogated.

Manila, 1st May, 1874.

ILOILO.

OBSERVATIONS ON THE TRADE AND NAVIGATION OF ILOILO.

By Nicolas Loney, Esq., Her Majesty's Vice-Consul.

Vessels bound from Manila, or from Ports to the Northward, during the N.E. Monsoon, may safely proceed towards Iloilo by the Maricaban Passage between Luzon and Mindoro, and through the chain of Islands off N.E. coast of Panay. For this route, the charts of the Spanish "*Commission Idrogafica*," compiled by Don Claudio Monteros in 1857, would be useful. After passing Tablas and Remblon (which latter island possesses an excellent harbour, much frequented by coasting vessels as a port of refuge and for obtaining supplies), steer for the group of small islands called collectively the "*Silanga*," lying off the N.E. of Panay, a good mark for which is the high conical island called Pan de Azucar, or Sugar-loaf, which is visible from a great distance. In approaching these islands during the N.E. monsoon, vessels should pass between the islets of Jintotolo and Zapato-Major, and during the S.W. monsoon more in towards the Panay shore, between Olutaty and Zapato-Minor. After leaving the Zapato, the course is to the south of the Gigantes, and the channel through the group of islands is generally entered between Snogon and Calanan, from whence the route is continued between Culebre and the main Pan de Azucar and Malangaban, inside Ygbon Bulabadingan and Tagubanhban islands. Through the passage between these islands there is safe anchorage. The Estancia affords excellent anchorage and shelter at all times, and at Apiton, opposite Yogubanhham, there is also good anchorage in both monsoons. In the S.W. monsoon there is safe anchorage between Pan de Azucar and Sobrero islands, and in the bay of Malagonoes. In the N.E. monsoon, in addition to the Estancia and Apiton, there is good anchorage under Pan de Azucar, in the small bay or indent looking S.E. At Bacauan, or La Concepcion, is the residence of the Commandant of the district, and from hence assistance and supplies may be had, if needed, and at the place marked Apiton (Aguada) on the charts, good water is easily obtainable.

The broader channel between the islands of Panay and Negros, although apparently good, and though formerly adopted by several ships bound to Iloilo, is now found not to be safe, there being large patches of shoal water with coral, imperfectly surveyed, extending off the Batayan and Negros shore. Vessels have occasionally touched in coming through this passage, and it should not therefore be taken.

After passing Tagubanhham and Apiton, and emerging into the broad channel between Panay and Negros, the best course is to steer direct for the highest land visible on the island of Guimaras, care being taken to clear Pepitas Rocks, which lie some distance off the shore and are awash.

Leaving the Calabazas Islets and Pepitas, the route, after making the small block-house near Banate, is due south, until a group of seven remarkable rocks, which lie between the N.E. end of Guimaras and Panay shore, called the Siete Pecados, are sighted. On opening the channel between the Guimaras and Panay and getting the Siete Pecados to bear W. $\frac{1}{4}$ N., steer direct for the passage between these rocks and the Panay shore. This course will clear the *Iguana Bank*, lying to the S.E., of the

Pecados, with 1 to 2 fathoms of water on it, and Point Dumanges to the N.E., the shoal water of which extends to a considerable distance.

The lead is a good guide through the Siete Pecados channel, giving $4\frac{1}{2}$, 7, 8, 11 and 15 fathoms until the Pecados are passed to the southward, when the water deepens to 18 and 19 fathoms. The channel between these rocks and Guimarás is not good. On passing the Pecados the south shore should be kept on board, to avoid the shoal water on the Panay side. When the fort, which is half-a-mile to the west of the river Iloilo, bears W.S.W., steer for it, anchoring as convenient in 10 to 12 fathoms, a little more than a quarter of a mile off shore to the eastward of the river.

Though the northern passage just described is safe and convenient in the northerly monsoon, and is always used by coasters in both seasons, strangers will probably prefer the route along the west coast of Panay, making Iloilo from the south. This route should always be adopted in the S.W. monsoon. Making the western coast of Panay from the Mindoro Straits, this coast, comprising the province of Antique, should be closed, as the westerly monsoon is not very regular, and does not often blow strongly between the Cuyos Island and Panay, or the north of Basilan. It may be approached with safety anywhere to the southward of the islands of Barbatan and Maralison, which latter has a reef to the east and west. Barbatan, which is very steep, affords, with Lipata (under this latter point), the only available anchorage on the Antique coast during the S.W. monsoon, but in the N.E. monsoon the harbour of San José de Buena Vista is quite safe, and affords good supplies of provisions and water, being not unfrequently visited by whalers for that purpose.

The south coast of Panay is free from dangers till near the town of Otong. The coast of Guimarás to the north of Point Balingasag, or the north of Port St. Anna, is likewise safe. This port is capable of admitting vessels of large tonnage, and affords shelter under almost any circumstances. The bights along the coast have deep water, and vessels can work close in shore, or from point to point, with perfect safety; but generally there is no good anchorage, as the coast is steep and the holding ground not good.

In passing the S.W. point of Panay during the night, the islands of Juraojurao and Nogas should not be closed, as both have reefs round them to the southward. When clear of these islands on rounding the S.W. point of Panay, vessels may safely steer N.E. by E. 32 miles without any danger, but after running that distance they should heave-to during the night, or if the night is very clear run towards the Panay shore keeping the lead going, and when the water shoals, anchoring till daylight, as by keeping over to the Guimarás shore (particularly in the N.E. monsoon), they will find no anchorage and will lose ground.

It is necessary to follow the above instructions carefully, because the Otong Bank extends more to the west and south-west than is shown on the present published chart, and is yearly increasing, and also because the tide runs very strongly on both sides of it. With the flood tide (against the N.E. monsoon,) vessels can easily work up in short tacks under the Guimarás shore.

The Otong Bank is 8 miles in length N.E. and S.W., by $2\frac{1}{2}$ miles N.W. by W. and S.E. by E. at its broadest part. It is of fine sand, with depths varying from $\frac{1}{2}$ to 3 fathoms. The edges in some places are steep, and in others shoal gradually. To avoid this danger, vessels should, after closing Guimarás, keep that shore on board, and be careful in beating up not to close the Panay side to less than four fathoms, and not to stand further from the Guimarás shore than half-a-mile, until Point Cabalig bears S. by W. $\frac{1}{2}$ W. $2\frac{3}{4}$ miles, when they should stand across and open the port of Iloilo clear of Point Bondulan, which kept open will clear the Guimarás Bank lying between Points Cabalig and Bondulan. Care should be taken in standing across towards the Otong Bank, to tack as soon as the water shoals to 6 fathoms, as the Bank is steep-to. After passing Point Bondulan, the fort should not be brought to the eastward of N.E. by E.

Guimarás Bank, with 11 feet on its shoalest part, extends in a N.E. by E., and S.W. by S. direction a little over a mile, and about three cables east and west, with

deep water all round. The S.W. head bears from Point Bondulan N.N.E. $\frac{1}{2}$ E. $1\frac{1}{2}$ miles. Iloilo fort kept open off Point Bandulan will clear this danger.

These banks have been recently surveyed, in May, 1864, by the officers of the Spanish "*Hydrographical Commission*," but the charts have not yet been published. It is intended to place two lights in such a position as will greatly facilitate the entrance from the south.

Anchorage.—The island of Guimaras forms in front of Iloilo a sheltered passage, running nearly N. and S. about $2\frac{1}{2}$ miles broad, with deep water and good holding ground, except immediately to the eastward of the fort, where the sand is loose. In mid-channel the depth exceeds 20 fathoms. The best anchorage, least exposed to the sweep of the tides, is to bring the Bantay (guard house) off the south point of the river to bear N.W. $\frac{1}{2}$ N., with the fort bearing S.W. $\frac{1}{2}$ W. Here a ship is out of the strongest current, with the advantage that cargo-boats can easily reach her and return.

TO ENTER THE RIVER AND INNER PORT OF ILOILO.—Although the land is low at the entrance, the mouth of the river is distinctly seen, being marked by beacons on the port and starboard sides. On entering, keep the port beacon close on board, after passing which and the watch house, steer for the second point on the starboard hand, giving it a berth of forty feet. The east bank, with 16 feet, should be closed to this distance until after the first sharp bend of the creek is passed, and then the port side to the wharf or anchorage. Vessels usually bring up at jetties, about half-a-mile to one mile from the entrance, and have the advantage, if of moderate size, of discharging and loading at the stores without employing boats. The creek, or rather tidal river, varies in breadth from a quarter to half-a-mile, and reaches beyond the town of Melo, meeting the sea again near Iloilo; and another branch continues as far as Otong.

DEPTH OF WATER.—The depth at the entrance to the river is nearly 5 fathoms at low water, but at a short distance within it decreases to 15 feet, and then deepens. The rise of tide being $6\frac{1}{2}$ feet, vessels drawing 16 to 18 feet can easily enter and leave; and when, as is proposed, a dredging-machine is employed to clear away the mud which has been allowed to accumulate, vessels of almost any draught will be able to complete their cargo inside. Ships of 1,000 tons register have loaded part cargoes alongside the jetties. The custom is to load to $14\frac{1}{2}$ to 15 feet in the river and complete loading outside.

TIDES.—It is high water at Iloilo, full and change, at noon; spring rise $6\frac{1}{2}$ feet. The stream runs at spring quite 3 to 4 knots through Iloilo. The flood sets to the northward. The ebb tide to the north of Pepitas rocks runs to the eastward, but to the south of these rocks, to the westward.

VARIATION OF THE COMPASS.— $1^{\circ} 15' E.$

PROVISIONS AND WATER.—Fresh beef is cheap and good. Good water can always be got a little to the north and south of the village of Pilator Buena Vista on Guimaras. It is best to take up the casks at high water on the beach, and with the aid of the natives fill them, so as to be ready to go off with the following tide. Take care to leave a little before high water, so as to be sure of reaching the ship, as the tide changes suddenly, and runs down with great strength.

REPAIRS.—The river of Iloilo affords considerable facilities for heaving vessels down. At the fine port of Santa Anna, on the island of Guimaras, is a building-yard.

PORT DUES.—On foreign vessels arriving and leaving in ballast, $12\frac{1}{2}$ cents per ton; with cargo inwards or outwards, or both, 25 cents per ton. Payment at one port clears for the other open ports of the Philippines in a proportional extent.

MANIFEST.—This document must be certified by the Spanish Consul at the port from which the vessels arrive, under penalty of a fine of \$200. This also applies to vessels in ballast.

MONEY.—The currency is confined to Spanish and South American dollars and subdivisions, and to the \$1, \$2, and \$4 gold pieces coined in Manila.

WAGES.—The wages of labourers for shipping average from 25 to 30 cents a day; Carpenters $31\frac{1}{4}$ to 50 cents; Caulkers $37\frac{1}{2}$ cents.

WEIGHTS AND MEASURES.—The picul of 100 catties, or 140 lbs. English; the quintal of 4 arrobas, or 100 lbs. Spanish, equal to 100 lbs. English; the arroba of 25 lbs. Spanish.

PRODUCE.—The country around Iloilo and in the province and island generally is very fertile and extensively cultivated. It is well peopled, and there are towns of 18, 20, 30, and 40 thousand inhabitants in the vicinity and interior, and on the coast. Nearly all tropical productions can be grown on the island, but the chief articles of export are Sugar (which is at present the most important), Tobacco. Sapanwood, Rice, Hides, Hemp (imported coastwise), Cattle, and a large quantity of available native textures, made of the fibre of the pineapple leaf, Silk, Hemp, and other fibres. These textures are mostly for native consumption in the Archipelago. The quantity of sugar has increased rapidly since the opening of the port to direct foreign trade.

At the fine island of Negros the planting of cane is being much extended. The bulk of the plantations is owned by natives, but a number of Europeans have formed estates there, and several steam mills for crushing cane have recently been erected. Very productive land in good positions is to be had; labour is not scarce; conveyance of produce by sea to the Iloilo market is safe and expeditious, and intending planters could scarcely find a more eligible district.

COFFEE—Thrives well, but is not yet cultivated on a scale to allow of export.

AMERICAN PASSENGERS' ACT.

An Act supplementary to the Act in relation to Immigration.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in determining whether the immigration of any subject of China, Japan, or any Oriental Country, to the United States is free and voluntary, as provided by section two thousand one hundred and sixty-two of the Revised Code, title "Immigration," it shall be the duty of the Consul-General or Consul of the United States residing at the port from which it is proposed to convey such subjects, in any vessels enrolled or licensed in the United States, or any port within the same, before delivering to the masters of any such vessels the permit or certificate provided for in such section, to ascertain whether such immigrant has entered into a contract or agreement for a term of service within the United States for lewd and immoral purposes, and if there be such contract or agreement the said Consul-General or Consul shall not deliver the required permit or certificate.

SEC. 2.—That if any citizen of the United States or other person amenable to the laws of the United States shall take or cause to be taken or transported to or from the United States any subject of China, Japan, or any Oriental Country without their free and voluntary consent for the purposes of holding them to a term of service, such citizen or other person shall be liable to be indicted therefor, and on conviction of such offence shall be punished by a fine not exceeding two thousand dollars and be imprisoned not exceeding one year, and all contracts and agreements for a term of service of such persons in the United States, whether made in advance or in pursuance of such illegal importation, and whether such importation shall have been in American or other vessels, are hereby declared void.

SEC. 3.—That the importation into the United States of women for the purposes of prostitution is hereby forbidden; and all contracts and agreements in relation thereto, made in advance or in pursuance of such illegal importation and purposes are hereby declared void, and whoever shall knowingly and wilfully import, or cause any importation of women into the United States for the purposes of prostitution, or shall knowingly or wilfully hold or attempt to hold any woman to such purposes in pursuance of such illegal importation and contract or agreement, shall be deemed guilty of a felony, and on conviction thereof shall be imprisoned not exceeding five years, and pay a fine not exceeding five thousand dollars.

SEC. 4.—That if any person shall knowingly and wilfully contract or attempt to contract, in advance or in pursuance of such illegal importation, to supply to another the labour of any coolie or other person brought into the United States in violation of section two thousand one hundred and fifty-eight of the Revised Statutes, or of any other section of the laws prohibiting the coolie-trade or of this Act, such person shall be deemed guilty of a felony, and upon conviction thereof, in any United States Court, shall be fined in a sum not exceeding five hundred dollars and imprisoned for a term not exceeding one year.

SEC. 5.—That it shall be unlawful for aliens of the following classes to immigrate into the United States, namely persons who are undergoing a sentence for conviction in their own country of felonious crimes other than political or growing out of or the result of such political offences, or whose sentence has been remitted on condition of their emigration, and women "imported for the purposes of prostitution." Every vessel arriving in the United States may be inspected under the direction of the Collector of the port at which it arrives if he shall have reason to believe that any such obnoxious persons are on board; and the officer making such inspection shall certify the result thereof to the master or person in charge of such vessel, designating

in such certificate the person or persons, if any there be, ascertained by him to be of either of the classes whose importation is hereby forbidden. When such inspection is required by the collector as aforesaid it shall be unlawful, without his permission, for any alien to leave any such vessel arriving in the United States from a foreign country until the inspection shall have been had and the result certified as herein provided, and at no time thereafter shall any alien certified to by the inspecting officer as being of either of the classes whose immigration is forbidden by this section, be allowed to land in the United States except in obedience to a judicial process issued pursuant to law. If any person shall feel aggrieved by the certificate of such inspecting officer stating him or her to be within either of the classes whose immigration is forbidden by this section, and shall apply for release or other remedy to any proper Court or Judge, then it shall be the duty of the collector at said port of entry to detain said vessel until a hearing and determination of the matter are had, to the end that if the said inspector shall be found to be in accordance with this section and sustained, the obnoxious person or persons shall be returned on board of said vessel, and shall not thereafter be permitted to land unless the master, owner, or consignee of the vessel shall give bond and security, to be approved by the Court or Judge hearing the cause, in the sum of five hundred dollars for each such person permitted to land conditioned for the return of such person, within six months from the date thereof, to the country whence his or her emigration shall have taken place, or unless the vessel bringing such obnoxious person or persons shall be forfeited in which event the proceeds of such forfeiture shall be paid over to the collector of the port of arrival and applied by him, as far as necessary, to the return of such person or persons to his or her own country within the said period of six months. And for all violations of this Act, the vessel, by the acts, omissions, or connivance of the owners, master, or other custodian, or the consignees of which the same are committed, shall be liable to forfeiture, and may be proceeded against as in cases of fraud against the revenue laws for which forfeiture is prescribed by existing law.

Approved, March 3rd, 1875.

General Post-Office, Hongkong.

RATES OF POSTAGE, NOTICES, &c.

REVISED AND CORRECTED BY THE POSTMASTER-GENERAL ON THE
18TH DECEMBER, 1875.

POST-OFFICE NOTICES.

Colonial Postage Stamps may be purchased at the General Post-Office.
The Stamps represent the following amounts in value:—

| | | | | | |
|--------------|----------|---------------|--------------|--------------|---|
| 2 Cents..... | 1 Penny. | 18 Cents..... | 9 Pence. | 2 Dollars... | Duty Stamps now used for the payment of postage. |
| 4 „ | 2 Pence. | 24 „ | 1 Shilling. | 3 „ ... | |
| 6 „ | 3 „ | 30 „ | 15 Pence. | 10 „ ... | |
| 8 „ | 4 „ | 48 „ | 2 Shillings. | | |
| 12 „ | 6 „ | 96 „ | 4 „ | | |

It must be understood that the above Postage Labels are available only for correspondence posted at the General Post-office in Hongkong, or its Agencies at Canton, Macao, Swatow, Amoy, Foochow, Shanghai, Ningpo, Hankow, Hiogo, Nagasaki, and Yokohama, and that except in the case of correspondence sent by Officers and Seamen serving on board Her Majesty's Ships, British Postage Stamps are not available for the payment of postage.

No credit can be given to these Stamps on correspondence addressed to places to which the postage cannot be prepaid in Hongkong.

All correspondence for places to which prepayment is compulsory must be prepaid in Hongkong Postage Stamps.

Insufficiently Stamped Letters addressed to the United Kingdom will be sent on charged with a fine of One Shilling in addition to the Postage.

Hongkong money only (including Mexican dollars of full weight) can be received. Change will be given when possible, but cannot be demanded as of right.

Letters containing coin, posted in the United Kingdom, addressed to Hongkong or posted in Hongkong addressed to the United Kingdom, on which the Fee for Registration has not been paid, will be compulsorily registered and charged on delivery with a double Registration Fee: and further, any Letters having the word *Registered* written upon them, which may be posted without Registration, will be forwarded charged in like manner with a double Registration Fee.

In the event of a Letter being supposed to contain coin and being consequently thus treated, and proof being afterwards afforded that the Letter did not contain coin, the amount charged will be refunded.

Correspondence intended to be forwarded to the United Kingdom in the mails by the French Packets may be posted at the *British Post Offices* at Shanghai and Yokohama, and the same will be forwarded in closed Mails to London.

The rates of postage on such Correspondence, which must be paid in the Postage Stamps of this Colony, are the same as those which govern the Correspondence forwarded in the mails by the British Contract Packets.

Many persons are in the habit of addressing Correspondence, for well-known Firms and Individuals, *London* only; but this practice not unfrequently occasions delay in the delivery of such Correspondence. In all cases, however well a Firm or Individual may be known, it is most essential, to ensure correct and prompt delivery, that the street and the number of the house, should be stated on each letter, &c.

Rates of Postage Chargeable in Hongkong upon Correspondence forwarded to the undermentioned Places.

2 P.M., Registry of Letters ceases (Registration fee, 8 cents.)

2.30 P.M., Post-office closes.

2.30 P.M., Correspondence may be posted on board the Packet with Late Fee of 12 cents extra Postage, until

2.50 P.M., when the mail is finally closed.

Prepayment is compulsory, and correspondence must be specially directed either *Via San Francisco* or *Per U. S. Packet*, or with the steamer's name.

Correspondence to New Zealand via Torres Straits.

A considerable amount of Correspondence being received directed to New Zealand *via Torres Straits* it is notified that the New Zealand Post-office has declined to receive Mails by that route, hence there is no alternative but to forward such Correspondence *via Galle*.

Persons who are anxious to avail themselves of the Torres Straits Steamers to communicate with New Zealand should address their letters, &c., to the care of an Agent at Sydney.

Bankers and the Mercantile community are requested to post all Letters, &c., as early as practicable, especially when sent in large numbers, as facility is given to the Post-office in the discharge of its duties, and greater security afforded to the public by such a course: whereas great inconvenience, and frequently confusion, occurs through the whole of the correspondence from many of the large Firms being sent to the Post-office at the last moment before closing the mails for Europe, by both the English and French Packets.

The Postmaster at San Francisco has given notice that letters despatched from this Colony (whether through the Post-office, or as consignees' letters) by the United States Mail Packets, will not be forwarded to any places not within the United States unless the proper Postage from America to such places be prepaid in *American* Postage Stamps, but will be returned to this Office.

Such letters should either be prepaid in both Hongkong and American Stamps as above, or posted to an Agent in the United States.

This notice chiefly applies to the following places, the American rates of Postage to which are as follows:—

| | Letters. Cents. | Newspapers. Cents. | Books. Cents. |
|----------------------|-------------------------|-----------------------|------------------|
| Honolulu..... | 6 per $\frac{1}{2}$ oz. | 2 | 4 per 4 oz. |
| Brazil | 15 „ $\frac{1}{2}$ oz. | — | — |
| Peru, Chili, &c..... | 22 „ $\frac{1}{2}$ oz. | 4 | 10 per 4 oz. |

Many boxes of letters are received at the Post-office not sealed, that is to say, the box is fastened with sealing wax, but there is no impression of a *seal*.

The attention of boxholders is called to the necessity of carefully sealing such boxes with some recognisable seal, and of sending a chit-book or receipt with them. The omission of the latter precaution leaves a doubt as to whether the contents of the box ever reached the Post-office; the omission of the former, as to whether part of them might not have been abstracted for the sake of the Postage Stamps.

It is not generally possible to *count* the letters sent in sealed boxes (except where there are only three or four) and therefore the Post-office receipt to such an entry as, “47 for London, 15 for Calcutta, 3 for Penang, 5 for Singapore,” must be taken to mean no more than what is stated, viz., that *one box* was duly received.

As some misapprehension exists regarding the transmission of Packets of Patterns and Samples through the Post, it is hereby notified that the privilege of sending such articles through the Post at the rates of postage applicable to them is restricted to *bonâ fide Trade Patterns or Samples of Merchandize*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by *one private individual to another* which are not actually patterns or samples, are not admissible.

MONEY ORDERS.

I.—Money Orders will be issued at this office, and at the agencies thereof at Shanghai and Yokohama, on all the Money Order-offices in the United Kingdom of Great Britain and Ireland for amounts not exceeding £10, at the rate of Exchange current for each mail, and charged with commission according to the following scale, viz:—

| | | |
|----------------------------|----------|-----------|
| For sums not exceeding | £ 2..... | 18 cents. |
| Above £2 and not exceeding | £ 5..... | 36 „ |
| „ £5 „ | £ 7..... | 54 „ |
| „ £7 „ | £10..... | 72 „ |

II.—No Money Order to include a fractional part of a penny.

III.—Orders drawn in the United Kingdom upon Hongkong, Shanghai and Yokohama, will be paid at the rate of Exchange of the day of the receipt of the advices of such Orders at the places named.

IV.—Alphabetical Lists of over 3,700 Money Order offices in the United Kingdom, shewing the counties in which they are situated, are hung up for public reference at this office, and also at Shanghai and Yokohama.

V.—Applicants for Money Orders must furnish, in full, the surname, and, at east, the initial of one Christian name, both of the remitter and the payee; if the remitter or payee be a Peer or a Bishop, his ordinary title will be sufficient; if a firm, the usual designation of such firm, such as *Baring Brothers* will suffice, but the

mere term *Messrs.*, such as *Messrs. Rivington*, or the name of a Company trading as *Carron Co.*, is inadmissible.

VI.—The remitter on stating that the Order is to be paid only through a Bank, to have the option of giving or withdrawing the name of the payee, in such case the Order will be crossed in the same way that Cheques are commonly crossed when they are intended to be paid through a Bank.

VII.—When an Order is presented through a Bank, a receipt by any person will be sufficient, provided the Order be crossed with the name of the receiving Bank, and be presented by some person known to be in the employ of such Bank.

VIII.—The signature of the payee of a Money Order to be affixed on the Order in the place provided for the purpose. If the payee be unable to write, he must sign the receipt by making his mark in the presence of a witness, who must sign his name with his address in the presence of the officer who pays the order.

IX.—Should the payee of a Money Order desire to receive payment in the country in which the Order was issued at some other office than that in which the Order was originally drawn, the transfer will be granted, provided the Order be inclosed to the Postmaster of the office in which it was drawn. In such case a new Order will be issued, the commission chargeable upon which will be deducted from the amount of the new Order.

X.—In the event of a Money Order miscarrying or being lost, a duplicate will be granted on a written application from the payee, (containing the necessary particulars, and accompanied by an additional commission) to the office where the original Order was payable.

XI.—On the receipt of a similar application, orders will be given to stop payment of a Money Order, or to renew a lapsed Order. The additional commission in the last case will be deducted from the amount of the new Order. Lapsed Orders must be presented with the application for a new Order.

XII.—But when it is desired that any error in the name of the remitter or payee should be corrected, or that the amount of a Money Order should be repaid to the remitter, or that a lapsed Order should be renewed for payment in the country in which the Order was originally drawn, application must be made to the Chief Money Order Office of such country. This application must be accompanied by an additional commission, unless it have reference to a lapsed Order, in which case the commission will be deducted from the amount of the new Order.

XIII.—Repayment, whether of an original, or renewed, or a duplicate Order will not be made to the remitter, until it has been ascertained that the advice has been cancelled at the office on which the Order was originally drawn.

XIV.—Payment of an Order must be obtained before the end of the sixth calendar month after that in which it was drawn; for instance, if drawn in January, payment must be obtained before the end of July, otherwise the Order will become lapsed, and a new Order (for which a second commission to be deducted from the amount of the Order, will be charged) will become necessary.

XV.—If an Order be not paid before the end of the twelfth calendar month after that in which it was drawn,—for instance, if drawn in January, and not paid before the end of the following January—all claim to the money will be forfeited, unless, under peculiar circumstances, the Post-office of the country in which the Order was drawn think proper to allow it.

XVI.—After once paying a Money Order, by whomsoever presented, the paying office will not be liable to any further claim. If a wrong payment, however, be made, owing to the negligence on the part of any officer of the Post-office, the Postmaster-General of the country or colony in which the negligence occurs will, if he see fit, require the officer in fault to make good the loss.

XVII.—No Money Order will be paid unless the advice has been previously received.

XVIII.—Additional rules for greater security against fraud, and for the better working of the system generally, will be made as occasion may require.

XIX.—Should it appear that Money Orders are used by mercantile men, or others, either in the United Kingdom or at Hongkong, Shanghai or Yokohama, for the transmission of large sums of money, the British or Colonial Post-office, as the case may be, will consider the propriety of increasing the commission, and will exercise the power of wholly suspending for a time the issue of Money Orders.

1.—Money Orders are granted at this office on the Post-offices at Shanghai and Yokohama, and in like manner Money Orders are granted at Shanghai and Yokohama upon this office, for sums not exceeding Fifty Dollars, at the ruling rates for Dollars, charged with the following rates of commission, viz:—

On Order not exceeding \$25.....15 cents.

Above \$25 and not exceeding \$50.....30 "

2.—The Money Orders are in each case drawn in Dollars and Cents.

3.—All payments for Money Orders, whether by the Public to the Post-office, or by the Post-office to the Public, are made in Current Dollars.

4.—The stipulations contained in the preceding notice, so far as they are applicable, are enforced in conducting the local Money Order system between Hongkong and Shanghai and Yokohama.

PATENT SLIP AND DOCK COMPANY,

AND

NOVELTY IRON WORKS,

No. 32, PRAYA WEST,

MACHINE, BOILER, AND BLACKSMITH SHOPS, IRON AND
BRASS FOUNDERS.

This Establishment is now prepared to take on vessels 300 feet in
length for PAINTING and RE-COPPERING; also large REPAIRS to
Hulls, Machinery, etc., etc.

A large Assortment of Spars and Lumber, Iron and Copper Plates,
Iron and Brass Rods, Pitch, Oakum, Felt, and Sheathing Metal.

Are also prepared to make Contracts for the construction of Hulls
and Machinery for vessels of any class.

For further Particulars, address,

MANAGER,
PATENT SLIP AND DOCK COMPANY.

HONGKONG & WHAMPOA DOCK COMPANY, LIMITED.

OFFICE, 1, CLUB CHAMBERS, D'AGUILAR STREET,
HONGKONG.

BANKERS:

HONGKONG AND SHANGHAI BANKING CORPORATION.

BOARD OF DIRECTORS:

Hon. W. KESWICK, Chairman.
A. McIVER, Esq., Vice-Chairman.

H. HOPPIUS, Esq.
A. T. MANGER, Esq.,

D. GILLIES, Esq., Secretary.

THE COMPANY'S DOCKS at ABERDEEN, KOWLOON, and WHAMPOA, are in full working order, and the attention of Captains and Shipowners is respectfully solicited to the advantages which this Establishment offers for the Docking and Repair of Vessels. The Docks are the largest in China, and they are fitted with every appliance in the way of Caissons, powerful Steam Pumps, &c., to ensure safety and despatch in work.

WORKSHOPS.

The Workshops at Aberdeen, Kowloon, and Whampoa, possess every appliance necessary for the Repairs of Ships or Steam Machinery. The Engineers' Shops are supplied with Lathes, Planing, Screwing, Cutting, and Punching Machines, &c., &c., capable of executing work on the largest scale, and driven by steam. The Shipwrights' and Blacksmiths' Shops are equally well supplied, and are under the Supervision of experienced Europeans.

Powerful Lifting Shears at all their Establishments stand on a Jetty, alongside which vessels can lie drawing 24 feet of water, and take in or out boilers, &c.

BOILERMAKERS' DEPARTMENT.

The Company, in addition to executing Repairs, are prepared to tender for supplying new Boilers to Steamships, for constructing which they have great facilities.

FOUNDRY.

Iron and Brass Castings, either for Ships or general purposes, are executed with the utmost despatch.

STORES.

The Company's Stores will (when required) supply at moderate rates all the necessities for Ship-work, such as Paint, Copper, Canvas, &c.

The Company's Steam Tugs *Fame* and *Pilot Fish* are always in readiness to berth Vessels, and Tow them to or from Sea at moderate Rates.

For further particulars, apply to the Office of the Company, 1, D'Aguiar Street, Hongkong.

Dysentery,
Cholera,
Fever,

CHLORODYNE

Ague,
Coup de Soleil,
Colds, &c.

IS THE ORIGINAL AND ONLY GENUINE.

Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyne: that the story of the defendant, Freeman, being the Inventor, was deliberately untrue, which he regretted had been sworn to. Eminent hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July 12th, 1864.

The Public, therefore, are cautioned against using any other than

DR. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged function, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtue most extensively, using it in great quantities in the following diseases:—

CHLORODYNE is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq., late inspector of Hospitals, Bombay.—“Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after 18 months' severe suffering, and when other remedies had failed.”

Dr. Lowe, Medical Missionary in India, reports (Dec. 1865) that in nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Mrs. Forbes, wife of the Chaplain at Paris.—“I cannot speak too highly of Dr. J. Collis Browne's Chlorodyne; I have not in any single instance been disappointed with the result, even in aggravated cases of Indian Cholera.”

Extract from *Medical Times*, Jan. 1866.—“Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not ‘supply a want and fill a place.’”

Extract from the General Board of Health, London, as to its efficacy in Cholera.—“So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.”

Beware of spurious and dangerous compounds sold as Chlorodyne, from which frequent fatal results have followed.

None genuine without the words “Dr. J. Collis Browne” on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Sole manufacturer, J. T. Davenport, 33, Great Russell Street, Bloomsbury, London.

Sold in Bottles at 1s. 1½d., 2s. 9d., and 11s.

Agents.—A. S. WATSON & CO., Hongkong.

THOMAS HUBBUCK & SON,
WHITE LEAD, OIL, PAINT, AND VARNISH
WORKS,
NO. 24, LIME STREET, LONDON.

HUBBUCK'S
PATENT
WHITE ZINC PAINT,

the most durable and beautiful Paint known. Is cheaper in use than White Lead, and is proved to be superior for all purposes than the pernicious Lead Paint, and equally adapted for all Climates.

It is free from any poisonous ingredient, and suited in all respects to the use of the Painter. Each cask of Pure White Zinc is Stamped—"HUBBUCK, LONDON PATENT."

HUBBUCK'S ANTI-CORROSIVE PAINTS,

the most valuable protection to iron roofs, bridges, piers, ships, and buildings exposed to tempestuous weather and scorching sun.

HUBBUCK'S ANTI-OXIDATION COMPOSITION,

for coating Iron and Wood Ships' Bottoms: a preservative against fouling and corrosion. This composition is ready for immediate use, and obviates the waste of carrying unmixed Paints, Oils, Driers, &c. It is also applicable to all the purposes of other Paints.

HUBBUCK'S ANTI-INCRUSTATION BOILER COMPOSITION

throws down the deleterious matters in the water which form the incrustation, and does not in the smallest degree injure the iron plates, rivets, or brass fittings.

HUBBUCK'S PALE BOILED OIL,

being much purer than raw linseed oil, is the only boiled oil that can be used for White and delicate coloured Paints. It dries quick and hard, never blisters, and is more durable.

HUBBUCK'S BINNACLE AND COLZA OILS,

prepared expressly for Ship's Lights, Lighthouses, &c.

HUBBUCK'S WHITE LEAD, COLOURS, OILS, AND VARNISHES,

properly packed for exportation.

HUBBUCK'S PAINTS, OILS, AND VARNISHES

are the best and therefore the Cheapest. Beware of counterfeits of their Name and Trade Mark.

CAUTION.

Since the successful introduction of their **Pale Boiled Linseed Oil**, some dealers are selling colourable imitations as "Improved Boiled Oil," "Clear Boiled Oil," &c. These imitations are not to be depended on, and only cause disappointment and loss.

CONVICTION.

In April, 1873, a Native dealer, at Hongkong, was prosecuted and convicted of a fraudulent imitation of Hubbuck's Name and Mark, and of placing them on some spurious goods shipped from London.

DR. ROOKE'S ANTI-LANCET.

WHAT IS IT ?

A Handy Guide to Domestic Medicine. Every Household should possess a Copy.

DR. ROOKE'S ANTI-LANCET.

All Invalids should read the Chapter on the Functions of Digestion, showing by what process food is converted into blood—How blood sustains the whole system—How nervous power influences all the bodily organs to perform their allotted functions—Principles of life and death unfolded—Dying seldom accompanied with pain—Mental vision amplified prior to the death of the body—Immortality of the intelligent principle.

DR. ROOKE'S ANTI-LANCET.

The Nervous, the Dyspeptic, or the Hypochondriac, should read the Chapter on the Origin of all Diseases from depression of nervous or vital power—How explained—Producing or exciting causes of nervous depression—Effects of the mind on the body—Effects of excessive joy—Anger—Grief and suspense—Sudden surprise and fright—Hard study—Hot relaxing fluids—Intemperance in eating and drinking—Spiritous liquors—Loss of blood—Impure Air.

DR. ROOKE'S ANTI-LANCET.

Read the Chapter on the Destructive Practice of Bleeding, illustrated by the cases of Lord Byron, Sir Walter Scott, Madame Malibran, Count Cavour, General "Stonewall" Jackson, and other public characters.

DR. ROOKE'S ANTI-LANCET.

All who wish to preserve health, and thus prolong life, should read Dr. ROOKE'S ANTI-LANCET, or HANDY GUIDE TO DOMESTIC MEDICINE which can be had *gratis* from any Chemist, or *post free* from Dr. Rooke, Scarborough. Concerning this book, the late eminent author, Sheridan Knowles, observed :—"It will be an incalculable boon to every person who can read and think."

DR. ROOKE'S ANTI-LANCET.

A clergyman, writing to Dr. Rooke, under date, July 15th, 1874, speaking of the "ANTI-LANCET," says :—"Of its style and matter I can judge, for I have been an author on other themes for thirty years. None but a master-mind among men could have conceived or written your Introduction. It is the most perfect delineation I ever read of the human frame, and the links between the material fabric and the spiritual union of body and soul."

DR. ROOKE'S ANTI-LANCET.

or, HANDY GUIDE TO DOMESTIC MEDICINE, can be had *gratis* of all Chemists, or *post free* from Dr. Rooke, Scarborough, England.

DR. ROOKE'S ANTI-LANCET.

Ask your Chemists for a copy (*gratis*) of the last edition, containing 168 pages.

CROSBY'S BALSAMIC COUGH ELIXIR.

OPIATES, NARCOTICS, and SQUILLS, are the usual remedies for the Cough, but they only palliate the symptoms, and do not remove the cause. Instead of such palliative remedies, which give temporary relief at the expense of enfeebling the digestive organs, and thus increasing that debility which lies at the root of the malady, modern science points to CROSBY'S BALSAMIC COUGH ELIXIR as the true remedy.

DR. ROOKE'S TESTIMONIAL.

Dr. Rooke, Scarborough, author of the Anti-Lancet, says—

"I have repeatedly observed how very rapidly
"and invariably it subdued Cough, Pain,
"and Irritation of the Chest in cases of
"Pulmonary Consumption; and I can,

"with the greatest confidence, recommend
"it as a most valuable adjunct to an other-
"wise strengthening treatment for this
"disease."

This medicine, which is free from opium and squills, not only allays the local irritation, but improves digestion and strengthens the constitution. Hence it is used with the most signal success in
ASTHMA, CONSUMPTION, INFLUENZA, CONSUMPTIVE NIGHT SWEATS,
BRONCHITIS, COUGHS, QUINSY, And all Affections of the Throat and Chest.

Sold in Bottles, at 1s. 9d., 4s. 6d., and 11s. each, by all respectable Chemists, and wholesale by JAMES M. CROSBY, Chemist, Scarborough, England.

* Invalids should read Crosby's Price Treatise on "DISEASES OF THE LUNGS AND AIR-VESSELS," a copy of which can be had *GRATIS* of all Chemists.

NOW READY.
 IMPERIAL QUARTO.
ENGLISH AND CHINESE DICTIONARY,
 WITH THE
PUNTI AND MANDARIN PRONUNCIATION.

AN ANGLO-CHINESE DICTIONARY, PUBLISHED AT THE "DAILY PRESS"
 OFFICE, HONGKONG.

FOR scope and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given *in extenso*. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Puntí pronunciations are given, the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications.

The scope of the work is so great, and its utilitarian purposes so complete, that a reference to its pages enables a person who understands English to communicate *effectively* with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasionally.

It comprises upwards of two thousand large quarto pages.
